Contents

Can We Curb the Irresponsibles?:
Lawrence K. Frank ........................................... 349

TECHNICAL PAPERS

Hemolytic Streptococcal Sore Throat: Antibody Response Following Treatment With Penicillin, Sulfadiazine, and Salicylates:
Lowell A. Banta, Paul J. Boeving, and Wesley W. Spink ............................. 352

Blood Levels of Penicillin After Oral Administration With Various Antacids: Lloyd D. Seager ........... 353

Studies on the Toxicity of Streptomycin for Man:
Robert A. Hettig and John D. Adcock .................................. 355

Complement-fixing and Neutralizing Antibodies Against Japanese B Virus in the Sera of Okinawan Horses: Horace L. Hodes, Lewis Thomas, and John L. Peck ................................. 357

The Absorption of Orally Administered Penicillin:
Walsh McDermott, et al. ........................................ 359

Effect of Penicillin on Growth of Alcaligenes faecalis: MacDonald Fulton,
Charles E. Lankford, and Martha Chilton ................................ 361

Intravenous Utilization of Partial Acid Hydrolysates of Proteins: William C. Risser,
Jay E. Schenck, and Douglas V. Frost .................................. 362

The Presence in Normal Serum of Inhibiting Substances Against Bacillus subtilis:
C. W. Buggs, et al. ........................................ 363

Preliminary Studies on the Absorption and Excretion of Streptomycin in Dogs:
Boyd E. Graham, Milton J. Vander Brook, and Martin H. Kuijzena ........... 364

The Activity of Streptomycin in Experimental Syphilis: Wolcott B. Dunham and Geoffrey Bake 365

NEWS AND NOTES ........................................... 366

SCIENCE EXHIBITION ......................................... 367

LETTERS TO THE EDITOR

A Plea for Stabilized Progress: R. J. Cordell ........................................................................ 370

Broadcasting Congressional Sessions:
Morice J. Kelley and Ralph G. Schaubhut ........................................... 370

Federal Aid for Scientific Research:
Jerome Alexander ........................................... 370

In Support of a September Meeting of the AAAS: Ruth M. Addoms, et al. ............. 371

Radio Echoes From the Planets:
W. D. Hershberger ........................................... 371

Competition Between Two Entomogenous Bacteria: R. L. Baird ....................................... 371

Relief Packages for Scientific Workers in Western Europe: Francis Verdoorn ................. 372

BOOK REVIEWS

Studies in biophysics: the critical temperature of serum (50°C): Lecomte du Noüy,
Reviewed by Otto Stuhlmans, Jr. ........................................... 374

Principles of radio for operators: Ralph Atherton,
Reviewed by Leonard F. Fuller ........................................... 374

Electronics for engineers: John Markus and Vin Zeluff. (Eds.),
Reviewed by W. D. Hershberger ........................................... 374

Human biochemistry: Israel S. Kleiner,
Reviewed by Victor C. Myers ........................................... 376
