Is There "A Standard to Which the Wise and the Honest Can Repair"?: A. J. Carlson ........................................ 377

SCIENCE LEGISLATION
On the Floor of the Senate: S. 1850: Howard A. Meyerhoff .... 382
Report on Science Legislation: Physical Society of Pittsburgh 383

OBITUARY
Theodore Crétet Burnett: J. M. D. Olmsted .......................... 384

TECHNICAL PAPERS
A New Steric Effect in Organic Chemistry:
Herbert C. Brown ................................................ 385

The Detoxification by Acetylation of Soluble Antigens From Shigella dysenteriae (Shiga) and E. typhosa: Henry P. Treffers ........................................ 387

On the Blocking Antibody and the Zone Phenomenon in Human Anti-Rh Sera:
Philip Levine and R. K. Waller .................................... 389
Relapses Following Delayed Treatment of Naturally Induced Pienaz Malaria of Pacific Origin:
Harry H. Gordon, et al. ........................................ 391

U. S. NEWS AND NOTES ........................................ 392

INTERNATIONAL NEWS ........................................... 395

IN THE LABORATORY
Assay of p-aminobenzoic Acid: Derrol Pennington 397
Antagonism of Salicylate by Pantoyltaurine:
Philip G. Stansly and Clara M. Alverson ......................... 398

Interference with the Antibacterial Action of Streptomycin by Reducing Agents:
Amedeo Bondi, Jr., Catherine C. Dietz, and Earle H. Spaulding 399

Water-level Regulator for a Series of High-temperature Water Baths:
I. I. Berman and E. P. Barrett .................................... 401

LETTERS TO THE EDITOR
Soviet Scientists: J. G. Tolpin .................................. 402
Thromboplastic Studies on Hemophilia: David I. Macht and Marcus Osto 402

The Presumptive Identification of Antibiotics: Philip G. Stansly 402
Regional Research Stations in Basic Science:
Lee R. Dice ......................................................... 403

Science—A Means to What End?: C. Reinold Noyes ............ 403
Remarks on "Science and Man's Dilemma":
Carl D. Miller ...................................................... 404

Reply to Dr. Anson on Russia:
Sergei Gaposchkin ................................................ 404
Rediscovery of Vitamin A: K. Hickman ........................... 404

BOOK REVIEWS
Animal breeding plans: J. L. Lush.
Reviewed by Clair E. Terrill ....................................... 406

Correlation of cycles in weather, solar activity, geomagnetic values, and planetary configurations:
Maxwell O. Johnson.
Reviewed by C. G. Abbot ........................................ 407

Statistical methods: applied to experiments in agriculture and biology: George W. Snedecor.
Reviewed by P. M. Wadley ........................................ 407

Organic preparations: Conrad Weygand.
