Contents

Is There "A Standard to Which the Wise and the Honest Can Repair": A. J. Carlson ........................................ 377

SCIENCE LEGISLATION
On the Floor of the Senate: S. 1850: Howard A. Meyerhoff .................................................. 382
Report on Science Legislation: Physical Society of Pittsburgh .................................................. 383

OBITUARY
Theodore Crétè Burnett: J. M. D. Olmsted .................................................. 384

TECHNICAL PAPERS
A New Steric Effect in Organic Chemistry:
Herbert C. Brown .................................................. 385

The Detoxification by Acetylation of Soluble Antigens From Shigella dysenteriae (Shiga) and E. typhosa: Henry P. Treffers .................................................. 387

On the Blocking Antibody and the Zone Phenomenon in Human Anti-Rh Sera:
Philip Levine and R. K. Waller .................................................. 389

Relapses Following Delayed Treatment of Naturally Induced Piras Malaria of Pacific Origin:
Harry H. Gordon, et al. .................................................. 391

U. S. NEWS AND NOTES .................................................. 392

INTERNATIONAL NEWS .................................................. 395

IN THE LABORATORY
Assay of p-aminobenzoic Acid: Derrol Pennington .................................................. 397

Antagonism of Salicylate by Pantoyltaurine:
Philip G. Stansly and Clara M. Alverson .................................................. 398

Interference with the Antibacterial Action of Streptomycin by Reducing Agents:
Amedeo Bondi, Jr., Catherine C. Diets, and Earle H. Spaulding .................................................. 399

Water-level Regulator for a Series of High-temperature Water Baths:
I. I. Bezman and E. P. Barrett .................................................. 401

LETTERS TO THE EDITOR
Soviet Scientists: J. G. Tolpiz .................................................. 402

Thromboplastic Studies on Hemophilia:
David I. Mahtz and Marcus Ostar .................................................. 402

The Presumptive Identification of Antibiotics:
Philip G. Stanly .................................................. 402

Regional Research Stations in Basic Science:
Lee R. Dice .................................................. 403

Science—A Means to What End?:
C. Reimold Noyes .................................................. 403

Remarks on "Science and Man's Dilemma":
Carl D. Miller .................................................. 404

Reply to Dr. Amoss on Russia:
Sergie Gaposchkin .................................................. 404

Rediscovery of Vitamin A: K. Hickman .................................................. 404

Inactive (Non-oxygen-combining) Hemoglobin in the Blood of Ophidia and Dogs: J. Leal Prado .................................................. 406

BOOK REVIEWS
Animal breeding plans: J. L. Lush.
Reviewed by Clair E. Terrill .................................................. 406

Correlation of cycles in weather, solar activity, geomagnetic values, and planetary configurations: Maxwell O. Johnson.
Reviewed by C. G. Abbot .................................................. 407

Statistical methods: applied to experiments in agriculture and biology: George W. Snedecor.
Reviewed by F. M. Wadley .................................................. 407

Organic preparations: Conrad Weygand.
Reviewed by M. L. Wolfroom .................................................. 408
