The Little Researcher: Carl G. Hartman ........................................ 493

TECHNICAL PAPERS

Distemperoid Virus Interference in Canine Distemper: Robert G. Green and Cyril S. Stulberg .... 497
Availibility of Carotene From Kale: Elsa Orent-Kelles, et al. ........................................ 498

The Growth and Distribution of Murine Encephalomyelitis Virus in the Developing Chick Embryo: John T. Riordan and M. José Sá-Fleitas 499

Seed Pitting of the Lima Bean by Lygus Bugs in California: Kenneth F. Baker and William C. Snyder ...... 500

Oral Penicillin X: Manson Meads, Edwin M. Ory, and Maxwell Finland ........................................ 501

The Beckmann Rearrangement of Aliphatic Ketoximes: A. D. McLaren ........................................ 503
Penicillin Production by a Superior Strain of Mold: Marvin J. Johnson, et al. ........................................ 504

The Evolution of Oxygen From Illuminated Suspensions of Frozen, Dried, and Homogenized Chloroplasts: C. S. French, et al. ........................................ 505

ASSOCIATION AFFAIRS

The One Hundred Twelfth Meeting of the American Association for the Advancement of Science: F. R. Moulton ........................................ 506

Meeting of the Council of the AAAS: Otis W. Caldwell ........................................ 507
Sections and Societies: Howard A. Meyerhoff ........................................ 510

NEWS AND NOTES ........................................ 524

IN THE LABORATORY

Production of Penicillin X in "Submerged" Surface Cultures: Edith Stice and Robertson Pratt 535

A Low-resistance Valve and Indicating Flowmeter for Respiratory Measurements: Leslie Silverman and Robert C. Lee .... 537

LETTERS TO THE EDITOR

Degradation of Streptomycin and the Structure of Streptidine and Streptamine: H. E. Carter, et al. ........................................ 540

Scientific Research and National Welfare: Leonard B. Loeb ........................................ 540

Temperatures in Deep Wells and the Ice Age: Karl Ver Steeg ........................................ 541

Consultant Articles: Charles F. Bodecker ........................................ 541

Research Service Laboratories: Paul J. Kramer ........................................ 542

On Introductory Biology Courses: Arthur C. Giese ........................................ 543

Support of Scientific Research: C. C. Little ........................................ 543

BOOK REVIEWS

Pulmonary edema and inflammation: Cecil K. Drinker. Reviewed by Herbert Chasis ........................................ 544

Insect dietary: an account of the food habits of insects: Charles T. Brues. Reviewed by W. Dwight Pierce ........................................ 545

Dvorine color perception testing and training charts: Israel Dvorine. Reviewed by Dean Farnsworth ........................................ 545

SCIENTIFIC BOOK REGISTER ........................................ 546
