## Contents

The Multiple Factor Theory of the Control of Respiratory Ventilation: John S. Gray ........................................ 739

**TECHNICAL PAPERS**

Radioactivation of Colloidal Gamma Ferrie Oxide: 
M. Blau, H. Sinason, and O. Baudisch ......................... 744

The Age Factor in Adaptability of a Sarcoma Virus to Other Animal Species: 
F. Duran-Reynals .................................................. 748

The Effects of Sex Hormones on the Copulatory Behavior of Senile White Rats: 
R. S. Minnick, C. J. Warden, and S. Arieti ...................... 749

**OBITUARIES**

Forrest Rhinehart Immer: H. K. Hayes .......................... 751
Homer Jay Wheeler: Carl O. J. Wheeler ........................ 751

**NEWS AND NOTES** ............................................. 752

**IN THE LABORATORY**

A Useful Selective Bactericidal Property of Tertitol-7: Arthur L. Pollard ...................................................... 758

A Method for Continuous Parenteral Administration of Penicillin and Other Drugs: 
Dexter G. Noble ................................................... 759

**LETTERS TO THE EDITOR**

Atomic Bombs and Novae: Dean B. McLaughlin ............... 760

Facts, Feelings, and Freedom of Science: 
Vladimir C. Asmous .............................................. 760

On Science and Government Subsidies: 
Stanley F. Morse ................................................. 761

New Units for the Measurement of Radioactivity: 
S. C. Lind .......................................................... 761

Thyroid Adenomas in Rats Receiving Selenium: 
Joseph Seifter, W. E. Ehrich, George Hudyma, and 
George Mueller ...................................................... 762

Cestode "Parasitized" by Acanthocephalan: 
E. B. Miller ........................................................ 762

Antipurpuric Action of A-Tocopherol (Vitamin E): 
Floyd Skelton, Evan Shute, H. G. Skinner, and 
R. A. Waud ........................................................ 762

**BOOK REVIEWS**

Fluorochemistry: a comprehensive study embracing the theory and applications of luminescence and radiation in physicochemical science: 
Jack De Ment. 
Reviewed by G. K. Rollefson ...................................... 763

Faune de France 44: Coléoptères bruchides et anthribides: Adolphe Hoffmann. 
Reviewed by L. L. Buchanan ....................................... 764

Science and scientists in the Netherlands Indies: 
Pieter Honig and Frans Verdoorn. (Eds.) 
Reviewed by Egbert H. Walker .................................... 764

**SCIENTIFIC BOOK REGISTER** ................................ 766

**CATALOGUE CORNER** ........................................ 766
