Aging of Tissues: The Necessity for Research: Wm. deB. MacNider .................................................. 405
Studies of Vitamin Deficiency: M. K. Horwitt, et al. ................................................................. 407

TECHNICAL PAPERS

Distribution of Sodium and Water in Muscle Following Severe Cold Injury: J. M. Crismon and F. A. Fuhrman .................................................. 408
Mechanism of Hyaluronidase Action in Skin: Oscar Hechter .................................................................. 409
Grafts of Free Muscle Transplants Upon the Myocardium: Mandel Weinstein and Benjamin G. Shafiroff .................................................. 410
Effect of Penicillin on Seed Germination: Walton J. Smith .................................................................. 411
A New Helminthosporium Blight of Oats: Frances Meekan and H. C. Murphy ................................. 413
The Chloride Content of Conifers: Byron C.Brunstetter, et al. ......................................................... 415

NEWS AND NOTES ............................................................................................................................... 416

IN THE LABORATORY

Bone Marrow of Horses and Cattle: Lois Calhoun .................................................. 423
A Simple Vaporizing Device for the Attainment of Bactericidal Concentrations of Glycol Vapors in Air: T. N. Harris and Joseph Stokes, Jr. .................................................. 423
Fine-tapered Silver Electrodes for Physiological Work: Kenneth D. Roeder ........................................ 425
Use of Sulfuric Acid-Dichromate Mixture in Cleaning Glassware: Richard J. Henry and E. C. Smith .................................................. 426

LETTERS TO THE EDITOR

The Effect of Urethane on Lymphatic Leukemia in Rats: James B. Murphy and Ernest Sturm .................................................. 427
Wild Pineapples in Venezuela: Ismael Vélez ................................................................ 427
A Nutritional Concept of Cancer: Joshua Ledeborg ............................................................................. 428
Education and the Foundations of Science: Peter A. Carmichael ..................................................... 428
On Methods of Food Appraisal: George H. Berryman ........................................................................ 429
Growth of Ragweed for Its Medicinal Virtues in the Dominican Republic: H. A. Allard and Howard F. Allard .................................................. 429

BOOK REVIEWS

The California ground squirrel: a record of observations made on the Hastings Natural History Reservation: Jean M. Lindsale. Reviewed by William Henry Burt .................................................. 430
A treasury of science: Harlow Shapley, Samuel Rapport, and Helen Wright. (Eds.). Reviewed by Morris C. Leikind .................................................. 430

SCIENCE: A Weekly Journal, since 1890 the official organ of the American Association for the Advancement of Science. Published by the American Association for the Advancement of Science every Friday at Lancaster, Pennsylvania.

Communications relative to articles offered for publication should be addressed to Editor, 1515 Massachusetts Avenue, N.W., Washington 5, D.C.

Communications relative to advertising should be addressed to THEO. J. CHRISTENSEN, 1515 Massachusetts Avenue, N.W., Washington 5, D.C.

Entered as second-class matter July 18, 1923 at the Post Office at Lancaster, Pa., under the Act of March 3, 1879.

Communications relative to membership in the Association and to all matters of business of the Association should be addressed to the Administrative Secretary, AAAS, 1515 Massachusetts Avenue, N.W., Washington 5, D.C.

Annual subscription, $7.50 Single copies, 25 cents
