Contents

Research and Medical Practice:
Ernest W. Goodpasture ........................................... 473

The Science Training Group in the Washington Area:
Philip N. Powers .................................................. 477

TECHNICAL PAPERS
The Infectiousness of Coccidioidomycosis:
Sol Roy Rosenthal and John B. Routien ....................... 479

Effect of Rubber Tubing Upon the Stability of
Penicillin and Streptomycin Solutions:
J. B. Huesebusch, M. J. Foter,
and I. W. Gibby .................................................. 479

Comparative Toxicity of DDT and Four Analogues
to Goldfish, Gambusia, and Culex Larvae:
Eugene P. Odum and W. T. Sumerford ....................... 480

ASSOCIATION AFFAIRS ........................................... 482

NEWS AND NOTES .............................................. 483

IN THE LABORATORY
A Color Reaction Given by Streptomycin:
John V. Scudi, George E. Bozer,
and Viola C. Jelinek ........................................... 486

Relation of Vapor-Pressure Deficit to Evaporation
From a Spherical Atmometer in an Air-conditioned Room:
Burton E. Livingston and J. D. Wilson ....................... 487

Cover photograph AP wire photo.

A Simple, Rapid Technique for the Study of the
Action of Hydrolytic Enzymes on Insoluble Sub-
strates: Irwin W. Sizer ........................................... 488

Method for Making Filters Transmitting the Near
Ultraviolet and Absorbing Visual Light:
Burgess Smith .................................................... 490

LETTERS TO THE EDITOR
Some Notes on the Cancer Problem:
G. M. Kosolapoff .................................................. 491

On the Theory of Acids and Bases:
Arthur W. Devor .................................................. 492

Injection vs. Oral Administration of Folic Acid
in the Chick:
Douglas V. Frost and F. Pierce Dann ....................... 492

BOOK REVIEWS
An outline of organic nitrogen compounds:
Ed. F. Degering and collaborators.
Reviewed by A. L. Wilds ....................................... 493

Mammals of Nevada: E. Raymond Hall.
Reviewed by A. H. Wright ..................................... 494

SCIENTIFIC BOOK REGISTER .................................. 494
