Contents

Research and Medical Practice:
Ernest W. Goodpasture .......................................................... 473
The Science Training Group in the Washington Area:
Philip N. Powers ............................................................... 477

TECHNICAL PAPERS
The Infectiousness of Coccidioidomycosis:
Sol Roy Rosenthal and John B. Routien .............................. 479
Effect of Rubber Tubing Upon the Stability of Penicillin and Streptomycin Solutions:
J. B. Huelsbusch, M. J. Poter, and I. W. Gibby ...................... 479
Comparative Toxicity of DDT and Four Analogues to Goldfish, Gambusia, and Culex Larvae:
Eugene P. Odum and W. T. Sumerford ............................... 480

ASSOCIATION AFFAIRS ...................................................... 482

NEWS AND NOTES ........................................................... 483

IN THE LABORATORY
A Color Reaction Given by Streptomycin:
John V. Scudi, George E. Bozer, and Viola C. Jetinek .............. 486
Relation of Vapor-Pressure Deficit to Evaporation From a Spherical Atmometer in an Air-conditioned Room:
Burton E. Livingston and J. D. Wilson ............................... 487

A Simple, Rapid Technique for the Study of the Action of Hydrolytic Enzymes on Insoluble Substrates: Irwin W. Sizer ...................................................... 488
Method for Making Filters Transmitting the Near Ultraviolet and Absorbing Visual Light:
Burgess Smith ................................................................. 490

LETTERS TO THE EDITOR
Some Notes on the Cancer Problem:
G. M. Kosolapoff ............................................................. 491
On the Theory of Acids and Bases:
Arthur W. Devor ............................................................. 492
Injection vs. Oral Administration of Folic Acid in the Chick:
Douglas V. Frost and F. Pierce Dann ................................. 492

BOOK REVIEWS
An outline of organic nitrogen compounds:
Ed. F. Degering and collaborators.
Reviewed by A. L. Wilds .................................................... 493
Mammals of Nevada: E. Raymond Hall.
Reviewed by A. H. Wright .................................................. 494

SCIENTIFIC BOOK REGISTER ........................................... 494
