CONTENTS

Elementary Theory of the Chain-reacting File: Enrico Fermi ........... 27

Research or Available Knowledge: A Matter of Classification: Norman T. Ball .................................................... 34

Obituary
Leo Černovitov: Grace E. Pickford ............... 36

News and Notes ................................................. 37

Technical Papers

Hypervolemia in Mice Bearing Transplantable Granulosa Cell Tumors: Jacob Furth and Harry Sobel ............... 41

Streptomycin as an Aid in Isolating Influenza Virus: Albert P. McKeen and Wm. M. Hale ....................... 41

Meteorite Impact Suggested by the Orientation of Shatter-Cones at the Kentland, Indiana, Disturbance: Robert S. Diets ................................................................. 42

Evidence That the Hemolytic Anemia Caused by Fat and Choline Is Not Due to Lipotropic Action: John Emerson Davis ......................................................... 43

A Nonrespiratory Variant of Saccharomyces cerevisiae: Rita Whelton and H. J. Phaff ................................................. 44

The Deposition of Cit in Bone: William Bloom, Howard J. Curtis, and Franklin C. McLean ................................. 45

In the Laboratory

Apparatus for Studying Crystal Formation: R. M. Garrels, C. L. Jones, and A. L. Houlihan ............................................ 46

Antigenic Carbohydrate-Lipid Isolated from Paraffin-Oil Extract of Dead Tubercle Bacilli: Nine Choucruc ......... 46

A Technique for Obtaining Quickly Permanent Mounts of Nonembedded Botanical Material: R. L. Steyaert. 47

Fluorophotometric Determination of Rutin and Other Flavones: Anthony J. Glazo, Foster Adair, Evangeline Papageorge, and George T. Lewis ....................... 48

Metabolism Cages: F. W. Kinard, R. N. Danielson, and J. A. Warren ................................................................. 49

Sharp Interfacial Precipitin Reactions in Capillary Pipettes: Homer F. Swift .......................................................... 49

Warm Safranine for Plant Tissues: Seymour Shapiro 50

Book Reviews

The diffraction of X-rays and electrons by free molecules: M. H. Firestone. Reviewed by L. O. Brackenbury ............... 51

Qualitative analysis by spot tests: inorganic and organic applications. (3rd Eng. ed., rev.): Fritz Feigl. (Translated by Ralph E. Oesper.) Reviewed by A. A. Benedetti-Pichler ........................................ 51

Faune de l'Empire française. Reviewed by J. C. Bradley ................................................................. 51

Scientific Book Register .............................................. 52
