We take pleasure in announcing the publication of a distinguished book of paramount importance.

CYBERNETICS

or

Control and Communication in the Animal and the Machine

By Norbert Wiener

Professor of Mathematics, The Massachusetts Institute of Technology and Guest Investigator at the Instituto Nacional de Cardiología de México.

This book—Cybernetics—represents the outcome of more than a decade's work in a field of major significance by one of America's most brilliant mathematicians. As the first treatment of such a subject in a comprehensive way, Cybernetics seems to the publishers to be one of the most distinguished publications they have had in years. Indeed, the first edition of Cybernetics is likely to become a classic. * The title—coined in 1947 by the author from the Greek Kybernetes, or steersman—is applied to the entire field of control and communication theory. * Couched in large part in non-mathematical language, the work will be interesting and suggestive to serious workers in many fields—for example, anthropology, biology, mathematics, philosophy, physics, and radio and electrical engineering.

The Chapter Headings

First Edition—$3.00

Published October 22 1948

### The A.A.A.S. Centennial Program

A limited number of programs of the Centennial Meeting of the Association held in Washington, D.C., are available for distribution to members at $1.00 each.

Abundantly illustrated the Centennial Program describes the history of the institutions participating in the conducted tours—Agricultural Research Center, National Institutes of Health, National Naval Medical Center, Army Medical Center, National Bureau of Standards, Carnegie Institution of Washington, David Taylor Model Basin, National War College, and Naval Research Laboratory.

Of major interest is the historical survey of "Science in Washington" by Dr. Paul Oehser of the Editorial Staff of the Smithsonian Institution, which traces the development of science in Washington from the days of Thomas Jefferson to the appointment of the President’s Interdepartmental Committee on Research and Development in February 1948.

A volume of 132 pages, the Centennial Program is the only publication listing all the subjects and speakers and special events marking the celebration of the 100th Anniversary of the founding of the Association.

Format, 6 x 9 inches, bound attractively in gold-stamped green velour. Send checks or money orders to A.A.A.S., 1515 Massachusetts Avenue, N.W., Washington 5, D.C.
A.A.A.S. DIRECTORY OF MEMBERS

This Directory contains the names of 40,000 scientists: their addresses, positions, degrees, specialties, and professional positions.

Included in this 1600 page volume are the names of scientists from 76 foreign countries.

A unique and valuable feature is its Geographical Index from which may be found the names of specialists from every field of science in every city in the United States and Canada.

Introductory to the reports on the great meetings held by the A.A.A.S. and its affiliated societies is a Historical Summary of the great scientific discoveries of 100 years.

About 1600 pages, clothbound.
To members, $8.50; to others, $9.50.

A.A.A.S., 1515 Massachusetts Ave.,
Washington 5, D.C.

Please send me a copy of the A.A.A.S. Directory of Members and Summarized Proceedings, for which I enclose my check.

CHARGES FOR CLASSIFIED ADVERTISING

Regular setting 10¢ a word. Minimum charge $2.50 for each insertion. A box number counts as 8 words of the advertisement (e.g. 25 words plus box number equals 33 words). Make checks payable to the AAAS. All insertions must be accompanied by correct remittance and sent 14 days in advance of publication date to the Advertising Department, AAAS, 1515 Massachusetts Avenue, N.W., Washington 5, D. C.

POSITIONS WANTED

Botanist: Ph.D., young woman, now assistant professor in Southern University. Prefers Northeast. Available January or June. All replies confidential and will be acknowledged. Box 482A, SCIENCE.

Illustrator: Medica, biological. Trained, experienced. Available for staff position or free-lance work for textbooks, papers, etc. Box 469A, SCIENCE.

Psychology Professor: German Doctorate, almost 50 years, many years of experience in America and in Europe, is available. Box 481A, SCIENCE.

Sanitary Chemist: Ph.D.; four years, assistant professor of Biology, midwestern college; past five years, consulting chemist, midwestern city where his duties include research in water and sewage treatment; simultaneously has been holding important teaching appointments; for further information, please write Burneice Larson, Director, Medical Bureau, Palmolive Building, Chicago 11.

Statistician: M.A. in pure mathematics; several years' experience as statistician with Department of Measurement and Guidance validating psychological tests; for further information, please write Burneice Larson, Director, The Medical Bureau, Palmolive Building, Chicago 11.

POSITIONS OPEN

Bacteriologist: To head newly formed chemo-therapy group in the pharmaceutical division. Please state training and experience. Commercial Solvents Corporation, Terre Haute, Indiana. 10-29

Your own ad here will produce prompt and pleasing results!

An advertisement in these columns will reach more than 30,700 scientists.

Plan to use this economical medium for advertising your wants and offerings for books, scientific equipment, and professional services. Publication of notice within about 14 days of receipt of order.

Rates: 10¢ per word ($2.50 minimum) payable in advance. Box numbers, available for your convenience, count as eight words of the advertisements. All replies forwarded to box holders on the same day as received.

Address: Advertising Department, AAAS, 1515 Massachusetts Avenue, N.W., Washington 5, D. C.

Personnel Placement

POSITIONS OPEN

Pharmaceutical Chemist: B.S. with three or more years experience in pharmaceutical product development or manufacture, or M.S. with less experience; needed in development department of west coast pharmaceutical firm to work with chemical engineers on pharmaceutical process and product development and technical production problems. Starting salary $3900 to $4800, depending on qualifications. Box 486A, SCIENCE. 11-9

Pharmacologist: With adequate training in pharmacological methods, to take charge of new laboratory for pharmacological research in a company with extensive business in the fields of vitamins, hormones and antibiotics. State complete details of education and experience. Box 484A, SCIENCE.

Physiologist: Specializing in Marine Organisms to undertake graduate instruction and to develop research in this field in Miami University. Initial salary and rank according to qualifications from Research Associate (Assistant Professor) to Research Professor (Full Professor), $4,000 to $5,500 per annum. Application should include personal data, references, list of publications, past experiences held with salaries and statement of interests. Successful applicant will not necessarily be required to take up post immediately. Director, Marine Laboratory, University of Miami, Coral Gables 34, Florida. 11-19

Positions Open:

(a) Biochemist or physiologist: Ph.D., research position; problems for investigation deal with mucus secretion in gastrointestinal tract; large hospital; $3000; East. (b) Bacteriologist: Ph.D., preferred, M.S. required; one of the leading private practice clinics. Most of men on staff hold important faculty appointments in university medical school; opportunity for obtaining excellent experience; university medical center. (c) Endocrine research chemist: capable of doing endocrine assays; 15-man clinic operating own hospital of fairly large size, university affiliation; interesting expansion program; small town located short distance from university medical center. (d) Young man trained in radiochemistry or radio-chemistry; Ph.D. preferred, possibility of considering candidate with Master's degree; research position; new radioisotope unit of large hospital; Middle West. (e) Physicist: To direct clinical studies; research organization advantageous if particularly trained or experienced in obstetrics-gynecology; duties include considerable traveling medical editorial work; research head-quarter in East. (f) Physiologist: research department, biological manufacturing company; Middle West. (g) Pharmacologist; preferably of recent training; should be capable of screening various types of synthetics; pharmaceutical company; Middle West. SIC, Medical Bureau (Burneice Larson, Director). Palmolive Building, Chicago 11.

TO AVOID DELAY ...........

Please be sure to enclose cash in advance with all classified ads.

Wanted: Young man preferably graduate with background in physical sciences, and training in journalism to write technical articles for hard-to-find books supplied. All subjects, all languages. Also incorporate sets completed, genealogies and town histories, all magazine back numbers, etc. Send us your list of book-wants—no obligation. We report quickly. Lowest prices. (We also supply all current books at bookstore prices postpaid)

AMERICAN LIBRARY SERVICE
117 West 48th St., Dept. 222, New York 19, N. Y.
P.S. We also buy books and magazines. Send us your list.

SCIENCE, October 29, 1948, Vol. 108
WANTED TO PURCHASE SCIENTIFIC BOOKS AND PERIODICALS

Entire libraries, and smaller collections; sets and runs; foreign and domestic.

WALTER J. JOHNSON,
125 East 23rd Street, New York 10.

Your sets and files of scientific journals are needed by our library and institutional customers. Please send us lists and description of periodical files you are willing to sell at high market prices.

J. S. CANNER AND COMPANY, 909 Boylston Street, Boston 15, Massachusetts.

BOOKS | LARGE STOCK OF SCIENTIFIC AND TECHNICAL WORKS ALWAYS AVAILABLE

LONDON: H. K. LEWIS & CO., LTD.
136 GOWER STREET, W.C.1.

Send us your lists of SCIENTIFIC BOOKS AND PERIODICALS which you have for sale.

Complete libraries; sets and runs; and single titles are wanted. Also please send us your want lists.

STECHERT-HAFNER, INC., 31 East 10th Street, New York 3.

LANGUAGES

LINGUAPHONE MAKES LANGUAGES EASY

At home learn to speak Spanish, Portuguese, Italian, French, German, Russian, by quick easy Linguaphone Conversational Method. Save time, work, money. Linguaphone Correspondence Courses are available to Veterans under GI BILL OF RIGHTS. Send for free book. State if GI. LINGUAPHONE INSTITUTE, 84 RCA Bldg., New York 20, N. Y.

PROFESSIONAL SERVICES

Amino Acid and protein analysis by microbiologic methods. Research problems on contract basis. SHANKMAN LABORATORIES, 2023 South Santa Fe Ave., Los Angeles 21, Calif.

TRANSLATIONS

Scientific Russian, Polish or French translated into idiomatic English by a chemist with 25 years experience. Estimates submitted. Box 4853A, SCIENCE.

Your Engineering and Scientific graphs and charts prepared for publication, lantern slides made. ASA Standard Methods used. Best quality workmanship, quick service. Write today for information and prices. VISUAL SERVICE, P.O. Box 615, Yonkers 1, N. Y. R 10/26, 11/5, 11/12

Pre-Mixed Microbiological Assay Media (One complete mixture); assay standards; pure amino acids (analysed); microbiological assays. H. M. CHEMICAL COMPANY, LTD., 144 North Hayworth Avenue, Los Angeles 36, California.

SUPPLIES AND EQUIPMENT

All Amino Acids (natural and synthetic, rare sugars, biochemical products and reagents, new pharmaceuticals in stock. Write for complete price list. BIOS LABORATORIES, 607 West 43rd Street, New York 18.

THE TURN OF SUMMER into fall is Nature's most poignant reminder of another year gone by.

It's a reminder that should make you think, seriously, that you yourself are a year closer to the autumn of your own particular life.

What steps have you taken... what plan do you have... for comfort and security in those later years?

You can have a very definite plan—one that's automatic and sure.

If you're on a payroll, sign up to buy U. S. Savings Bonds on the Payroll Plan, through regular deductions from your wages or salary.

If you're not on a payroll but have a bank account, get in on the Bond-A-Month Plan for buying Bonds through regular charges to your checking account.

Do this... stick to it... and every fall will find you richer by even more than you've set aside. For your safe, sure investment in U. S. Savings will pay you back—in ten years—$100 for every $75 you've put in.

AUTOMATIC SAVING IS SURE SAVING—U. S. SAVINGS BONDS

Count C$^{14}$ with Maximum Efficiency

with the new "Q-gas" Counter

An exclusive development of
Nuclear Instrument & Chemical Corporation . . .
Counts alphas, soft or hard betas, and gammas, too

This is the new counter that's unparalleled for versatility. It is ideal for detection of soft ionizing radiation like that of C$^{14}$ and $S^{85}$. There is no window absorption or energy loss because the sample is placed inside the sensitive volume. Yet it efficiently counts hard betas and gammas, too, because higher counting gas pressure (atmospheric) provides high counting efficiency for penetrating radiation. Discriminate counting can also be done by the use of absorbers. This versatility is possible because of the use of "Q-Gas", a new quenching gas developed exclusively by NUCLEAR.

The counter is very long-lived because there is nothing to replace or repair. Operation is in the Geiger region at 1450 volts, and no amplification is necessary when used with most commercially available scaling units. The "Q-Gas" is economical in operation and quickly obtainable from stock. A low cost background shield is available.

These are only a few of the many outstanding features of the "Q-Gas" counter. Write today for complete information.

most complete line

NUCLEAR'S line of instruments and accessories for radiation research is unmatched for completeness and quality. We invite your requests for catalog information and counsel on isotope application.

nuclear instrument & chemical corporation

223-233 West Erie Street, Chicago 10, Illinois—Cable Address "Nuclear"
Formerly Instrument Development Laboratories, Inc.
The Screen saves precious hours, makes lasting impressions ... for pictures tell the story *fast*, make lessons *live*.

Teaching efficiency and economy is yours in any class at any time with Spencer Delineascopes. There are models to accommodate every type of still projection material—slide, opaque, slidefilm. We will be glad to supply helpful literature or information without obligation.

**THE MODEL B**
Projects science experiments, slides, drawings directly from teacher's desk.

**THE MODEL D**
Projects 3½" x 4" lantern slides, micro-slides, slidefilms in classroom.

**THE MODEL MK**
Brilliantly, faithfully projects 2" x 2" slides in full color with new coated optics.

**THE MODEL VA**
Clearly projects maps, postcards, book pages, photographs, students' work, small objects—or slides, and slide films.

**THE MODEL GK**
Vividly projects 2" x 2" or 3½" x 4" color slides in classroom or auditorium.
