A New Development in Ocean Wave Research:
H. R. Seiwell and
George P. Wadsworth ........................................ 271
Comparative Electron and Light Microscopic Investigations of Tactoid Structures in V$_2$O$_5$-sols:
John H. L. Watson, Wilfried Heller, and Wesley Wojtowicz .......... 274

Technical Papers
Alleviation of Experimental Diabetes in Man by Administration of Reduced Glutathione (GSH): Metabolic Implications:
Jerome W. Conn, Lawrence H. Louis, and Margaret W. Johnston .......... 279
Production of Acute Gouty Arthritis by Adrenocorticotropic: Leon Hellman ........................................... 280
A Simple Method for Welding Thermocouples:
James A. Riley .................................................. 281
Secretion of Radioactive Calcium in the Hen’s Egg: C. L. Comar and J. Clyde Driggers .... 282
Statistical Data on Glacial Boulders:
Gerald A. Waring .................................................. 283
The Analgesic Action of Teropterin: Donald Slaughter .......... 286
Flow in a Thin Glass Capillary as Affected by Wetting the Exterior of the Capillary:
J. C. Henniker and J. W. Mc Bain .................................. 286
Paper Chromatography of Flavonoid Pigments:
Simon H. Wender and Thomas B. Gage ................................ 287
The Inhibitory Role of “Motor” Nerves:
A. R. McIntyre and A. L. Bennett ................................ 289

Comments and Communications
Cultural and Scientific Conference for World Peace; Terminology for Sedimentation Force in Centrifugation; Scientific Method and Social Problems; Colloidal Electrolytes .......... 290

Book Reviews
The chemistry of high polymers:
Psychology: William James. Reviewed by Walter R. Miles .......... 293

Scientific Book Register ........................................ 294

Association Affairs
Southwestern Division, AAAS ........................................ 294

News and Notes .................................................. 295
