CONTENTS

A Background for Biological Studies with Radiiodine:
William T. Salter ................................................................. 453

Standardization of Radioactive Iodine:
Sergei Feitelberg ................................................................. 456

Interstellar Polarization, Galactic Magnetic Fields, and Ferromagnetism: Lyman Spitzer, Jr., and John W. Tukey ................................................................. 461

Technical Papers

Effect of Swine Influenza Virus on the Viscosity of the Egg-white Inhibitor of Hemagglutination:
Edward A. Eckert, et al. ......................................................... 463

A New Human Hereditary Blood Property (Cellano) Present in 99.8% of all Bloods:
Philip Levine, et al. ................................................................. 464

A New Time Scale for Kymograph Recording:
Frederick Franz ................................................................. 466

Induction of Cytogenetic Changes and Atypical Growth by Hexachlorocyclohexane:
Donntcho Kostoff ................................................................. 467

Runen Bacteria in Cobalt-Deficient Sheep:
Lorraine S. Gall, et al. ............................................................. 468

Spectrophotometric Determination of Amino Acids by the Ninhydrin Reaction:
William H. Fitzpatrick .......................................................... 469

Book Reviews

Reviewed by Frank C. Hibben .................................................. 470

Fatigue and impairment in man:
S. Howard Bartley and Eloise Chute.
Reviewed by Josef Brozek ...................................................... 470

Scientific and industrial glass blowing and laboratory techniques: W. E. Barr and Victor J. Anhorn.
Reviewed by Louis Navias ...................................................... 471

The essentials of organic chemistry:
C. W. Porter and T. D. Stewart.
Reviewed by G. B. Bachman .................................................. 471

Association Affairs ............................................................. 472

News and Notes ................................................................. 473

Manuscripts submitted for publication should be sent to the Editorial Office, with stamped, self-addressed envelope enclosed for possible return. The AAAS assumes no responsibility for the safety of the manuscripts or for the opinions expressed by contributors.

Annual subscription, $7.50; single copies, $2.50; foreign postage, outside the Pan-American Union, $1.00; Canadian postage, $5.00. Remittances and orders for subscriptions and single copies should be sent to the Circulation Department, Science, 1515 Massachusetts Ave., N.W., Washington 5, D. C. Membership correspondence for the AAAS should be addressed to the Administrative Secretary at the same address.

Change of address: Four weeks' notice is required for change of address. This should be sent to Science Recorder, 1515 Massachusetts Ave., N.W., Washington 5, D. C. When ordering a change, it is necessary to furnish an address and label from a recent issue. Claims for a missing number will not be allowed if received more than 60 days from date of issue. No claims allowed from subscribers due to failure to notify the Circulation Department of a change of address or because an issue is missing from their files, or for any reason from subscribers in Central Europe, Asia, or the Pacific Islands (other than Hawaii).

The AAAS also publishes The Scientific Monthly. Subscription rates on request.
