CONTENTS

An Institute of Microbiology—Its Aims and Purposes:
Selman A. Waksman ........................................ 27

On the Interpretation of the Absorption of Ultraviolet Light by Cellular Nucleic Acids:
Barry Commoner ........................................... 31

Technical Papers

Chromosome Numbers for Two Species of Mexican Commelinaceae:
Earlene Atchison, H. E. Moore, Jr., and C. E. Wood, Jr. .......... 41

The Application of the Beer-Lambert Law to Optically Anisotropic Systems:
Barry Commoner and David Lipkin .................................. 41

Opalescence of Serum after Total Body X-Irradiation as a Prognostic Sign of Death:
Robert L. Rosenthal ........................................... 43

An Automatic Analyzer for the Study of Speech in Interaction and in Free Association:
Marcel Verzeano and Jacob E. Finesinger ......................... 45

Increasing the Efficiency of the Laying Hen:
H. D. Goodale ................................................. 46

Low Temperature and Survival of Embryonic Tissue:
John Ferguson .................................................. 47

Comments and Communications

Replanting "Discarded" Varieties as a Means of Disease Control; Age of Canada's Principal Gold-producing Belt; Some Simple Calculations Concerning the Efficiency of the Photosynthetic Mechanism ........................................... 49

In Memoriam

Paul Rode: E. Raymond Hall .................................... 51
William John Dann: Philip Handler ................................ 51

Book Reviews

Surface active agents: their chemistry and technology: Anthony M. Schwartz and James W. Perry. Reviewed by James W. McBain .................................................. 52
Temperature and human life: C.-E. A. Winslow and L. P. Herrington. Reviewed by Clarence A. Mills ........................................... 52

News and Notes .................................................. 53

Science, a weekly journal founded in 1880, is published each Friday by the American Association for the Advance-
ment of Science at the Business Press, 10 McGovern Ave., Lancaster, Pa. Editorial and Advertising Office, 1515 Massa-

Manuscripts submitted for publication should be sent to the Editorial Office, with stamped, self-addressed envelope enclosed for possible return. The AAAS assumes no responsibility for the safety of the manuscripts or for the opinions expressed by contributors.

Annual subscription, $7.50; single copies, $.25; foreign postage, outside the Pan-American Union, $1.00; Canadian postage, $.50. Remittances and orders for subscriptions and single copies should be sent to the Circulation Department, Science, 1515 Massachusetts Ave., N.W., Washington 5, D. C. Membership correspondence for the AAAS should be addressed to the Administrative Secretary at the same address.

Change of address. Four weeks' notice is required for change of address. This should be sent to Science Recorder, 1515 Massachusetts Ave., N.W., Washington 5, D. C. When ordering a change, it is necessary to furnish an address stencil label from a recent issue. Claims for a missing number will not be allowed if received more than 60 days from date of issue. No claims allowed from subscribers due to failure to notify the Circulation Department of a change of address or because an issue is missing from their files, or for any reason from subscribers in Central Europe, Asia, or the Pacific Islands (other than Hawaii).

The AAAS also publishes The Scientific Monthly. Subscription rates on request.
