Table of Contents

Manpower for Research and Development:
Ralph M. Hogan .................................................. 133

A Radiation Meter for Disaster Use:
C. C. Lauritsen and T. Lauritsen .................................. 137

Technical Papers

Cross Tolerances in Resistant Houseflies:
John J. Pratt, Jr. and Frank H. Babers ......................... 141

A Semiautomatic Injection Apparatus for Use with Radioactive Solutions:
Margaret W. Holt .................................................. 142

The Informational Capacity of the Human Ear: Homer Jacobson .............. 143

The Effect of Aureomyein on Endamoeba histolytica in Vitro:
Redginal Hewitt, W. J. Whet Wallace, and
Elizabeth White .................................................. 144

Precipitation of Menstrual Bleeding in Monkeys by a Follic Acid Antagonist:
M. X. Zarrow, F. L. Hisaw, and
H. A. Sal Khanick .................................................. 147

Fat Deposits in the Kidney in Chronic Intoxication of the Dog by Hexachloroethyloxane:
M. J. Dallemagne, M. A. Gerbertzoff, and
E. Philippot .................................................. 148

A Simple Apparatus for Multiple Uniform Intravenous Injections:
Elliott F. Osserman and Arthur D. Mack ......................... 148

Plasma Concentrations of p-Aminosalicylic Acid (PAS) Increased by p-(Di-n-propylsulfamyl)benzoic Acid:
William P. Boger and Forrest W. Pitts ......................... 149

The Composition of Meconium: Isolation of Blood-Group-Specific Polysaccharides, Abnormal Composition of Meconium in Meconium Illus: S. Rapoport and
Dorothy J. Buchanan .................................................. 150

Taste Reactions to Antithyroid Substances:
William C. Boyd .................................................. 153

Comments and Communications

Dimenhydrinate vs. Diphenhydramine:
Leonard Mitchell .................................................. 154

On the Theory of Odors:
G. B. Kistiaikowsky .................................................. 154

Book Reviews

Reviewed by George Gamow ........................................ 155

*Science, founded in 1880, is published each Friday by the American Association for the Advancement of Science at the Business Press, 10 McGavern Ave., Lancaster, Pa. Entered as second-class matter at the Post Office at Lancaster, Pa., January 13, 1948, under the Act of March 3, 1879. Acceptance for mailing at the special rate postage provided for in the Act of February 28, 1925, embodied in Paragraph (d-2) Section 34.40 P. L. & R. of 1948.

All correspondence should be sent to Science, 1515 Massachusetts Ave., N. W., Washington 5, D. C. The AAAS assumes no responsibility for the safety of manuscripts or for the opinions expressed by contributors. Four weeks' notice is required for change of address, and an address stencil label from a recent issue must be furnished. Claims for a missing number will be allowed only if received within 60 days from date of issue.

Annual subscriptions, $7.50; single copies, $.25: foreign postage, outside the Pan-American Union, $1.00; Canadian postage, $.50.

The AAAS also publishes The Scientific Monthly. Subscription rates on request.*
