Table of Contents

Use of Blood Groups in Human Classification: William C. Boyd ........................................ 187

Technical Papers

Nitrogen Fixation by the Green and Purple Sulfur Bacteria: E. S. Lindstrom,
Shirley R. Tove, and P. W. Wilson ........................................ 197

Windowless, Flow Type, Proportional Counter for Counting C14: C. V. Robinson .......... 198

Preliminary Report on a Device for the Objective Measurement of the Negative
Afterimage Phenomenon: H. Lehmann ........................................ 199

A Preliminary Investigation of the Relationship between Visual Fusion of
Intermittent Light and Intelligence: Wilson P. Tanner, Jr. ........................................ 201

Studies on the Mechanism of Nitrate Assimilation in Neurospora:
Gabriel de la Haba .................................................. 203

A New Hemolytic Agent for the Manometric Determination of the Oxygen Content
of Blood: Martin J. Yiengst ........................................ 205

Radioautographs of Frog Membrane:
Russell E. Lux, Paul M. Scott, and John E. Christian ........................................ 205

Action of Bacterial Toxins on the “Fragility” of Chicken Erythrocytes:
F. R. Hunter et al. .................................................. 206

Book Reviews

Progress in the Chemistry of Organic Natural Products, Vol. V.: L. Zechmeister,
Ed. Reviewed by H. B. Hass ........................................ 208

The Effects of Atomic Weapons:
Samuel Glasstone, Ed. Reviewed by Howard L. Andrews ........................................ 208

News and Notes

The 15th Cold Spring Harbor Symposium on Quantitative Biology: Origin and Evolution
of Man: Curt Stern .................................................. 209

Symposium on Copper Metabolism,
McCollum-Pratt Institute of The Johns Hopkins University: Bentley Glass .......... 209

Science, founded in 1880, is published each Friday by the American Association for the Advancement of Science at the Business Press, 10 McGovern Ave., Lancaster, Pa. Entered as second-class matter at the Post Office at Lancaster, Pa., January 13, 1948, under the Act of March 3, 1879. Acceptance for mailing at the special rate postage provided for in the Act of February 28, 1925, embodied in Paragraph (d-2) Section 34.40 P. L. & R. of 1948.

All correspondence should be sent to Science, 1515 Massachusetts Ave., N. W., Washington 5, D. C. The AAAS assumes no responsibility for the safety of manuscripts or for the opinions expressed by contributors. Four weeks' notice is required for change of address, and an address stencil label from a recent issue must be furnished. Claims for a missing number will be allowed only if received within 60 days from date of issue.

Annual subscriptions, $7.50; single copies, $.25; foreign postage, outside the Pan-American Union, $1.00; Canadian postage, $.50.

The AAAS also publishes The Scientific Monthly. Subscription rates on request.
