
Technical Papers
The Influence of Glutamic Acid on Test Performance: D. G. Ellson, Paul R. Fuller, and Robert Urmston .................................................. 248
The Measurement of Radioactive Hydrogen in Solid Samples—Comparison with Gas Counting: Maxwell Leigh Eidenoff and Joseph E. Knoll ....................................... 250
A Maternal Influence on the Incorporation of Methionine into Liver Protein: Robert J. Rutman ........................................................................ 252
Phenylhydrazine Oxalate as "Trapping Agent" for the Simultaneous Fixation of Intermediate Products in Lactic Acid Fermentation with Living Cells: V. Bolcato ........................................ 252

The Experimental Feeding of Parathion to Dairy Cows: Paul A. Dahm, F. C. Fountaine, and Joseph E. Pankaskie ................................................................. 254
A Rational Method for Calculating Colloid Osmotic Pressure of Serum: Russell H. Kesselman ................................................................. 255
Decreased "Hunger" but Increased Food Intake Resulting from Hypothalamic Lesions: Neal E. Miller, Clark J. Bailey, and James A. F. Stevenson ........................................... 256

Comments and Communications
"Funginert"—A Designation for Inherently Fungus-resistant Material: Walter N. Ezekiel ................................................................. 259
Quantum Theory and Phytoplankton Photosynthesis: Jacob Verduin .................................................. 260
Our Decelerating Planet: Paul D. Harwood ........................................................................... 260

News and Notes ........................................................................................................ 261

Science, founded in 1880, is published each Friday by the American Association for the Advancement of Science at the Business Press, 10 McGovern Ave., Lancaster, Pa. Entered as second-class matter at the Post Office at Lancaster, Pa., January 13, 1948, under the Act of March 3, 1879. Acceptance for mailing at the special rate postage provided for in the Act of February 28, 1923, embodied in Paragraph (d-2) Section 34.40 P. L. & R. of 1948.

All correspondence should be sent to Science, 1515 Massachusetts Ave., N. W., Washington 5, D. C. The AAAS assumes no responsibility for the safety of manuscripts or for the opinions expressed by contributors. Four weeks' notice is required for change of address, and an address stencil label from a recent issue must be furnished. Claims for a missing number will be allowed only if received within 60 days from date of issue.

Annual subscriptions, $7.50; single copies, $2.50; foreign postage, outside the Pan-American Union, $1.00; Canadian postage, $5.00.

The AAAS also publishes The Scientific Monthly. Subscription rates on request.
