Table of Contents

Self-Awareness and Scientific Method:
George F. F. Lombard ........................................... 289
Clifford Dobell, F.R.S.: 1886-1949:
Gordon H. Ball .................................................... 294

Technical Papers

The Influence of ACTH and Cortisone on
Certain Factors of Blood Coagulation:
R. W. Smith, et al. .................................................. 295

The Nucleus-Dependence of P32
Uptake by the Cell:
Daniel Mazia and Henry I. Hirschfield .............. 297

The Use of a Radioactive Isotope in
Determining the Retention and Initial
Distribution of Airborne Bacteria
in the Mouse: L. J. Goldberg and W. R. Leif 299

Intracellular Distribution in
Rabbit Liver of Injected Antigens
Labeled with I125:
Charles F. Crampton and Felix Haurowitz .... 300

The Differential Induction of Lethal
Mutations by Formalin in the Two Sexes
of Drosophila: Irwin H. Herskovitz .......... 302

Lethal Mutation Rate in Drosophila
Treated with 20-Methylcholanthrene:
Walter J. Burdette ............................................. 303

Arylcycloalkylamines: Alfred Burger, et al. .... 306

Crystalline Chromogen Obtained from
Bombyx mori: Y. Hirata, K. Nakanishi,
and H. Kikkawa ............................................... 307

Built-up Poultry-House Litter as a
Growth-promoting Supplement for Chicks
on an All-Vegetable Vitamin B12-deficient
Diet: E. R. Halbrook, A. R. Winter,
and T. S. Sutton ............................................. 308

Preliminary Results on the Crystal Structure
of Some Ammonium Salts with Substituted
Aliphatic Chains: G. L. Clark and
C. R. Hudgens ................................................. 309

Growth Layers on the Teeth of Pinnipedia
as an Indication of Age:
Victor B. Scheffer ............................................. 309

Comments and Communications

A Commentary on Structural Variation in
Conifer Wood; Maximal Consumption of
Ethyl Alcohol; Textbooks and Courses in
General Biology ............................................. 312

Book Reviews

Geochemistry; Physical Methods in Chemical
Analysis; The Autobiography of Robert A.
Millikan; Heterocyclic Compounds; The
Chemistry of Heterocyclic Compounds;
Natural Regions of the U.S.S.R.; A History
of Biology; The Practice of Medicine .......... 315

Scientific Book Register ..................................... 318

News and Notes .................................................. 319
