Table of Contents

Self-Awareness and Scientific Method:
George F. F. Lombard ........................................... 289
Clifford Dobell, F.R.S.: 1886-1949:
Gordon H. Ball ....................................................... 294

Technical Papers
The Influence of ACTH and Cortisone on Certain Factors of Blood Coagulation:
W. R. Smith, et al. ................................................. 295
The Nucleus-Dependence of \( ^{32} \)P Uptake by the Cell:
Daniel Mazia and Henry I. Hirschfield ......................... 297
The Use of a Radioactive Isotope in Determining the Retention and Initial Distribution of Airborne Bacteria in the Mouse:
L. J. Goldberg and W. R. Leif ................................. 299
Intracellular Distribution in Rabbit Liver of Injected Antigens Labeled with \( ^{1131} \):
Charles F. Crampton and Felix Haurowitz .................... 300
The Differential Induction of Lethal Mutations by Formalin in the Two Sexes of Drosophila: Irwin H. Herskowitz .................. 302
Lethal Mutation Rate in Drosophila Treated with 20-Methylcholanthrene:
Walter J. Burdette ................................................. 303
Crystalline Chromogen Obtained from Bombyx mori: Y. Hirata, K. Nakanishi, and H. Kikkawa ...................... 307
Preliminary Results on the Crystal Structure of Some Ammonium Salts with Substituted Aliphatic Chains: G. L. Clark and C. R. Hudgens ............................................. 309
Growth Layers on the Teeth of Pinnipedia as an Indication of Age:
Victor B. Scheffer .................................................. 309

Comments and Communications
A Commentary on Structural Variation in Conifer Wood; Maximal Consumption of Ethyl Alcohol; Textbooks and Courses in General Biology ....................... 312

Book Reviews
Geochemistry; Physical Methods in Chemical Analysis; The Autobiography of Robert A. Millikan; Heterocyclic Compounds; The Chemistry of Heterocyclic Compounds; Natural Regions of the U.S.S.R.; A History of Biology; The Practice of Medicine .................. 315

Scientific Book Register ............................................ 318
News and Notes ..................................................... 319
