# Table of Contents

The Federal Computing Machine Program: 
*Minna Rees* .......................................................... 731

Building an Effective Technical Library: 
*W. E. Jorgensen and J. G. Carlson* .............................. 736

Dennis Robert Hoagland: 1884–1949: 
*Daniel I. Arnon* ................................................... 739

**Technical Papers**

A Thermophobic Insect: *R. I. Sailer* ............................... 743

Reinforcement History and Extinction after Reconditioning: *P. J. Bersh, W. N. Schoenfeld,* and *J. M. Notterman* ...... 743

Microscopic Structure of Carrot Chromoplasts: *Werner Straus* ........ 745

The Preparation of High-Purity Hydrogen Deuteride: *A. Fookson, P. Pomerantz,* and *E. H. Rich* ...................... 748

The Effect of 2,4-D on Potassium Nitrate Levels in Leaves of Sugar Beets: 
*L. M. Stahler and E. T. Whitehead* .............................. 749

An Analysis of the Enzyme Activity of the Conditioned Salivary Response in Human Subjects: *Joyce D. Brothers* and 
*C. J. Warden* ...................................................... 751

Spectrophotometric Assay of Ascorbic Acid with Peri-Naphthindanetetrione Hydrate: 
*M. S. El Rid, R. Moubasher,* and *Z. Hasson* ...................... 751

A Method for Evaluating the Relation of Glycogen to Inorganic Salt Deposition in Surviving Cartilage Slices in Vitro: 
*Paul A. Marks* and *Ephraim Shorr* .............................. 752

Plant-Growth Inhibitors from Red Kidney Bean Seeds: *S. M. Siegel* .......................................................... 754

Adjuvant Action of Amino Acids and Peptides in Fertilizin Agglutination of Starfish Sperm: *Charles B. Metz* and 
*Joanne E. Donovan* ............................................. 755

A Simple Method for the Determination of Diffusion Constants: 
*Leonard A. Walker* .................................................. 757

On the Question of Hyaluronidase in Sea-Urchin Spermatozoa: *Max Krauss* .................................................. 759

**Comments and Communications**

Research Note on Randomization in a Social Experiment; Social Responsibility in Science; Concerning the Zoological Record ........................................... 760

**Book Reviews**

German Aviation Medicine; Les Hautes Temperatures et Leurs Utilisations en Chimie; The Chordates; Variation and Evolution in Plants; Cell Physiology and Pharmacology; Pneumococcosis; Viruses 1950 ............................... 762

**Scientific Book Register** .......................................... 766

**News and Notes**

Reports of Meetings of the International Physiological Congress and the International Society for Cell Biology .............................. 767

---

*Science*, founded in 1880, is published each Friday by the American Association for the Advancement of Science at the Business Press, 10 McGovern Ave., Lancaster, Pa. Entered as second-class matter at the Post Office at Lancaster, Pa., January 13, 1948, under the Act of March 3, 1879. Acceptance for mailing at the special rate postage provided for in the Act of February 28, 1925, embodied in Paragraph (4-2) Section 34.40 P. L. & R. of 1948.

All correspondence should be sent to *Science*, 1515 Massachusetts Ave., N. W., Washington 5, D. C. The AAAS assumes no responsibility for the safety of manuscripts or for the opinions expressed by contributors. Four weeks' notice is required for change of address, and an address stencil label from a recent issue must be furnished. Claims for a missing number will be allowed only if received within 60 days from date of issue.

Annual subscriptions, $7.50; single copies, $2.50; foreign postage, outside the Pan-American Union, $1.00; Canadian postage, $.50.

The AAAS also publishes *The Scientific Monthly*. Subscription rates on request.
