Stress x-ray study of crystals — features correlation diagrams

ELEMENTS of OPTICAL MINERALOGY
An Introduction to Microscopic Petrography

Part II—DESCRIPTIONS of MINERALS
With Special Reference to Their Optic and Microscopic Characters

Fourth edition by ALEXANDER N. WINCHELL, University of Wisconsin and HORACE WINCHELL, Yale University. Describes minerals whose optical qualities are sufficiently well-known to permit diagnosis by means of a microscope. The minerals, with special emphasis on their microscopic and optic identification, are arranged according to a classification based on chemical composition and crystal structure. Supplemented by 427 excellent illustrations, this extensively revised book completely covers pertinent data, and focuses attention on relevant developments in the field since 1933. January 1951. 551 pages. $12.50.

Reviews recent advances and developments in the field

A practical approach to discovery and trapping of oil and gas

First critical review of promising chemical processes

INTRODUCTION to AGRICULTURAL BIOCHEMISTRY
By R. ADAMS DUTCHER, CLIFFORD O. JENSON, and PAUL M. ALTHOUSE, all at Pennsylvania State College. Covers general introductory material, plant growth, and animal growth, and includes such important topics as farm chemistry, pesticides, biological oxidations, and the nutritional requirements of human beings and domestic animals. January 1951. 502 pages. Illus. $6.00.

PETROLEUM GEOLOGY
By KENNETH K. LANDES, University of Michigan. The only modern book covering all three divisions of petroleum geology—geological occurrences of oil and gas deposits, geographical distribution of oil and gas deposits, and techniques for locating oil and gas. Gives important information on possible sources of hydrocarbons in the future. February 1951. Approx. 645 pages. 241 illus. Prob. $10.00.

The FISCHER-TROPSCH and RELATED SYNTHESSES
Including a Summary of Theoretical and Applied Contact Catalysis
By HENRY H. STORCH, NORMA GOLUMBIc, and ROBERT B. ANDERSON, all at U. S. Bureau of Mines. Reviews the tremendous amount of scientific and engineering data on synthesizing aliphatic organic compounds by the catalytic hydrogenation of carbon monoxide. March 1951. Approx. 603 pages. 183 illus. Prob. $8.50.

Send for copies on approval.

An Introduction to ANIMAL BIOLOGY—Third Edition

"One is accustomed to seeing textbooks of zoology filled with text that is tiresome and illustrations that hurt the eyes. This book is attractive in appearance, the text is very well written, and the pictures are clearly labeled."—ARCHIVES OF PHYSICAL MEDICINE

"This book has always been an important text and we are happy to call our readers' attention to the new third edition."—WARD'S Natural Science Bulletin

"An excellent text for students in general biology. This book is now being used in my class of 77 students."—P. A., Instructor, Shaw University

By JOHN B. PARKER, Ph.D., Professor Emeritus of Biology; and JOHN J. CLARKE, Ph.D., Assistant Professor of Biology, Retired; Both of The Catholic University of America, Washington, D. C. Third Edition. 554 pages, illustrated. Price, $4.00

Laboratory Instructions in ANIMAL BIOLOGY

This manual is the result of experience in conducting laboratory exercises coordinated with and made an integral part of a course in biology for beginners. The new discovery with reference to the red blood cells of the frog has been included in this new edition. A laboratory exercise on the Dog Fish has been added.

110 Pages. Price, $1.50

By JOHN B. PARKER, Ph.D., and JOHN J. CLARKE, Ph.D. (See above.)

Laboratory Instructions in PLANT BIOLOGY

Formerly published as Part II of Laboratory Instructions in ANIMAL BIOLOGY. However in many schools the introductory course in biology is confined wholly to the study of animal life or of plant life (but not both), so it has been revised and published as a separate manual. The exercises are not those required by a formal course in botany, but there is sufficient material included to enable the student to acquire basic knowledge of the plant world.

78 pages. Price, $1.25
The familiar C & B trademark is your assurance that the product carrying this mark

(1) has been manufactured to meet the standards and specifications stated upon the label.

(2) has passed our specifications prior to packaging and has been re-checked after packaging.

(3) is backed by an organization which, for over thirty years, has had as its primary aim the production of Laboratory Reagents of the highest purity.

NORWOOD, OHIO, U.S.A.
HIGH-SPEED AERODYNAMICS

By W. F. HILTON, Armstrong Whitworth Aircraft, Ltd., Coventry; formerly of the National Physical Laboratory, and of The Johns Hopkins University Applied Physics Laboratory. Ready, March 1951. 608 pages. 394 figures. 24 half-tones. About $8.00. Theoretical and practical discussion of transonics and supersonics in plane and rocket design and motors, for student and layman.

ELECTRONICS

PHYSICS

By S. G. STARLING, late of West Ham Technical College, and A. J. WOODALL, Military College of Science. Published, January 1951. 1301 pages. 906 figures. 11 half-tones. 21 tables. Logarithms. Exercises. $8.00. General physics, heat, light, sound, and electricity, with appropriate mathematical material, for the advanced general course, and for reference.

DATING THE PAST

By F. E. ZEUNER, University of London. Second Edition. 1950 (published). 450 pages. 46 figures. 24 half-tones. 57 chronological tables. $5.50. An introduction to geochronology, divided into the following parts: (I) Dating Early History and Late Prehistory, especially in North America; (II) Dating the Metal and Stone Ages, and Climatic Phases after the Ice Age; (III) Dating the Old Stone Age and Phases of the Ice Age, and (IV) Dating the History of the Earth and of Pre-Human Life.

EYES IN INDUSTRY

Edited by SIR STEWART DUKE-ELDER, Published, January 1951. 256 pages. 26 pages of plates, 6 in color. $5.50. In three parts: (I) Eyesight and Work, by Dorothy Adams Campbell, Ophthalmic Surgeon to the Coventry Hospital; (II) Visual Hazards in Industry and their Prevention, by W. J. B. Riddell, Professor of Ophthalmology, University of Glasgow, and (III) Special Aspects of Industrial Eye Injuries and the Psychology of Sight, by Sir Arthur Salusbury Macnalty, formerly Chief Medical Officer of the Ministry of Health. Four appendices on special problems.
PERSONNEL PLACEMENT

CHARGES and REQUIREMENTS for "PERSONNEL PLACEMENT" Ads
1. Rate: $15.00 per word, minimum charge $3.00 for each insertion.
   If desired, a "Box Number" will be supplied, so that replies may be directed to SCIENCE for immediate forwarding. Such service counts as 10 words (e.g., a 28 word display ad is a "Box Number", counts 35 words. All ads will be set in regular, uniform type, without display; the first word, only, in bold face type.

   For display ads, use type larger of a different style than the uniform settings, enclosed with separate border rules, the rate is $17.50 per inch; no extra charge for "Box Numbers".

2. Advance Payment: All Personnel Placement ads, classified or display, must be accompanied by correct remittance, made payable to SCIENCE. Insertion can not be made until payment is received.

3. Closing Date: Advertisements must be received by SCIENCE, 1515 Mass. Ave., N.W., Washington, D. C., together with advance remittance, positively not later than 14 days preceding date of publication (Friday of each week).

POSITIONS WANTED

Anatomist: M.D. Known investigator desires new academic teaching and research position having administrative duties. Wide teaching, organizing, research experience in human anatomy in 20 years in leading university. Trained surgeon. Interests: gross (functional), anatomy, early mammalian embryology. Learned and professional societies; publications; age 43. Box 415, SCIENCE.

Bacteriologist, Sc.D., considerable teaching and industrial experience; 2 years, head, bacteriological research in bacterial metabolism and chemotherapeutic agents, pharmaceutical company; publications; desires academic or industrial position; preferably East. Box 411, SCIENCE.

Biophysicist, Ph.D., extensive experience in electron microscopy, spectroscopy, electrophoresis, instrumental developments, and engineering apied to radiobiology, virology, and to general broad field of biology. Desires research position with partial administrative or teaching duties. Box 412, SCIENCE.

Director, establish, operate radioisotope laboratory; hospital, medical school or industry. Box 414, SCIENCE.

Director or assistant directorship of research, directorship of technical development or academic post; eight years teaching experience (bacteriology); four years, research bacteriologist and three years, development bacteriology, pharmaceutical industry; for further information please write Science Division, Medical Bureau, (Burneice Larson, Director) Palmolive Building, Chicago.

Parasitologist (Zoology)—B.S., M.S., M.P.H., Ph.D. (expected in August, 1951) desires teaching and/or research position for fall of 1951. Background in Zoology, Public Health, and Parasitology (General, Medical, and Veterinary). Some teaching, research, and clinical laboratory experience. Special interests epidemiology and ecology of parasites. Box 416, SCIENCE.

Zoologist: Ph.D., Candidate; Five years teaching experience; desires summer position in University or Biological Station. To teach Mammalogy, Herpetology, Faunistic Ecology or Field Zoology. Box 417, SCIENCE.

YOUR ad here will get RESULTS

POSITIONS OPEN

Positions Open:
(a) Biochemist with agricultural experiment station experience or training; food industry; East. (b) Physicians qualified sciences, medical pathology; medical department, biological organizations; $8,000-$15,000; Midwest. (c) Physician to direct clinical research; one of the leading pharmaceutical companies; responsibilities commercial, with medical co-authorship. (d) Medical writer. East. (e) Pharmaceutical chemist; assistant research directorship; experience, present with flavors, advantages. (f) Physician or medical bacteriologist, Ph.D., experienced in pharmacology to assist director, pharmacological control; duties include investigations new products; East. (g) Professor of Pharmacology; Ph.D. or M.D., woman eligible; eastern medical college. S-21 Science Division, Medical Bureau (Burneice Larson, Director) Palmolive Building, Chicago.

RESEARCH ASSOCIATE

Opening in large Eastern Pharmaceutical Company for Research Associate Ph.D. or Sc.D. in bacteriology or biochemistry with an immuno-chemical background to direct studies on antigen separations and purifications. Please forward resume including age, experience and salary desired to BOX 400, SCIENCE.

Scientists: Salaries positions, $3,600 to $25,000. This confidential service for outstanding men who desire a change of connection, will develop and conduct preliminary negotiations without risk to present position. Send name and address for details. Tomsett Associates, 1205 Berger Building, Pittsburgh 19, Pa.

SCIENTIFIC OFFICERS - WANTED

OTTAWA—ONTARIO

Applicants should be Canadian citizens who are graduates in science, preferably with post graduate training. Research or general experience in some particular scientific field is desirable in certain positions. War service will be considered an additional qualification in some positions and a requirement in others.

DUTIES:—The main duties will pertain to the co-ordination, control and dissemination of scientific information in most of the major fields of science and technology.

SALARY:—$2,700-$3,800 depending upon qualifications and experience.

APPLY TO:—Box 1274, Station B., Ottawa, Ontario.

The University of Manitoba invites applications for a Professorship in the Department of Physics. Salary $5,500 or over depending on qualifications and experience. Superannuation plan. Traveling allowance. Training and experience in experimental physics preferred. Further particulars available on application. Applications to be submitted by March 31st, 1951, should be addressed to the Registrar, The University of Manitoba, Winnipeg, Canada, and should include a statement of academic qualifications and teaching and research experience, and three letters of reference of recent date.

WANTED—Research Director

Qualified young men are invited to apply for the position of Director of Research in the National Jewish Hospital, Denver, Colorado. The Department will have an increased annual budget and enlarged facilities. The opportunity for top flight work in general medicine and tuberculosis is unusual. Address communications giving full credentials, to Administrator, NATIONAL JEWISH HOSPITAL 3800 East Colfax Avenue, Denver 6, Colorado.
CHARGES and REQUIREMENTS
for "MARKET PLACE" Ads

1. Rate: 20¢ per word for classified ads, minimum charge $5.00 for each insertion. Such ads are set in uniform style, without display; the first word, only, in bold face type. For display ads, using type larger or of a different style than the uniform classified settings, and entirely enclosed with separate rules, rates are as follows:
   - Single insertion $17.50 per inch
   - 7 times in 1 year 16.00 per inch
   - 13 times in 1 year 14.00 per inch
   - 26 times in 1 year 12.50 per inch
   - 52 times in 1 year 11.00 per inch

2. Payment: For all classified ads, payment in advance is required, before insertion can be made. Such advance remittances should be made payable to SCIENCE, and forwarded with advertising "copy" instructions.

3. Closing Date: Classified advertisements must be received by SCIENCE, 1515 Massachusetts Avenue, N.W., Washington 5, D. C., together with advance remittance, positively not later than 14 days preceding date of publication (Friday of every week).

For proof service on display ads complete “copy” instructions must reach the publication offices of SCIENCE, 1515 Massachusetts Avenue, N.W., Washington 5, D. C., not later than 4 weeks preceding date of publication.

SCIENCE, Vol. 113
A Complete Electrophoresis and Schlieren Laboratory:

Built-in regulated and stabilized power supply . . . no “B” batteries.

Integral refrigeration system . . . no ice cubes.

Internal rapid dialysis facilities . . no additional refrigerator.

Base for sturdy support . . . no special table or carriage.

All optics in air-conditioned space . . . no drying agents.

Cells available for adsorption, diffusion, and macro-preparative work.

Price of the Aminco Portable Electrophoresis Apparatus, ready to plug in, and complete with cell, holder, and accessories required for immediate operation . . . $3000, F.O.B. Silver Spring, Md.

Apparatus Constants

Physical Dimensions—Base unit, 24 x 18 x 13 inches; over-all height, 46½ inches.

Optical Path Length—90 inches.

Screen Size—3¾ x 4¾ inches (standard cut film).

Magnification—2.

Temperature Control—plus-minus 0.02°C.

Current Range—1-30 milliamperes.

A.C. Ripple—less than 0.03% of total current.

An unretouched diagram, actual size, of pathological human serum.

Comes a Complete New
Series of

MICROTOME KNIVES

AO Scientists are constantly searching for better materials and improved methods for manufacturing superior microtome knives.

Made of tough, improved steel rigidly controlled during heat treatment for grain size, carbide size, and hardness, these new knives are carefully ground and honed on revolutionary new equipment. As a result the edge is keen, straight, and extremely wear resistant. "Mirror finishing" gives extra corrosion resistance.

Discover for yourself what the extra quality and uniformity offered by these competitively priced AO Microtome Knives can do to improve your specimen sections. See your AO Distributor or write Dept. 01.
