"A 'must' for students of the sex hormones . . . one of the major up-to-date works in this field."—Science

BIOLOGICAL ACTIONS OF SEX HORMONES

Second Edition, Revised

by Harold Burrows

"The second edition of BIOLOGICAL ACTIONS OF SEX HORMONES is well on its way to becoming a standard reference book for students and investigators of the physiology of the sex hormones. It contains a wealth of well-annotated experimental data and it should be of great value to all students beginning their investigations on the sex steroids."—Science

"An exceptionally fine reference text . . . the most comprehensive in this field."—The Teaching Scientist

"The work presents a real achievement . . . an unequalled, compact, and complete storehouse of detailed information, particularly useful to the experimental biologist."—The Yale Journal of Biology & Medicine

"An exhaustive study thoroughly documented from the literature and from the author's experience of the effects of the gonadotrophins, androgens, and estrogens on living tissue and on the structure, function, and behavior of the entire organism."—Journal of the American Medical Association

"A well classified topical index and an enormous bibliography . . . make the work convenient to use and extremely valuable as an introduction into a complicated field of investigation."—The Quarterly Review of Biology

CONTENTS

Part I. Gonadotrophins of the Pituitary and Placenta. Four chapters.
Part II. Gonadal Hormones. One chapter.
Part III. Androgens. Five chapters.
Part IV. Oestrogens. Ten chapters.
Part V. Progestins. Two chapters.
Part VI. Sex Hormones of the Adrenal Cortex. One chapter.

OF MICE AND STRAINS

A major problem in experimental chemotherapy of tuberculosis has been to find a strain of mice not only of high susceptibility, but also as uniform in response as possible.

For the past few years the Squibb Institute for Medical Research has carried on studies directed toward this end. The results of these studies were published in a recent report.*

Of seven strains tested, Carworth Farms' strain of albino mice, the CF#1, was selected as being the most suitable for use in a standardized test for the anti-tuberculosis activity of compounds.

It has always been a fundamental aim of Carworth Farms to aid in the advancement of medical research. We take pride in the small part our CF#1 strain of mice has played in assisting in the fight against tuberculosis.

THE COMPLETE UNIT FOR PHOTOMICROGRAPHY & SCIENTIFIC PHOTOGRAPHY

PHOTOMICROGRAPHY. As illustrated. Uses any standard microscope. Integral permanently-aligned color- and intensity-controlled light source. Precision reflex camera has split-micron focusing.

PHOTOMACROGRAPHY. Adjustable macro-stand replaces microscope. Same illuminator and camera features used.

MICROSCOPY. Ortho-illuminator base ideal for phase, darkfield, or routine work. Near parallel beam, free from filament image, enters microscope condenser directly.

OTHER FACILITIES for Cinemicrography, photo-reproduction, enlarging, microprojection, photo-electric exposure measurement. Available complete or in any combinations required. As shown for photomicrography (without microscope) $896.00 f. o. b. destination U. S. A.

For MEASUREMENT of SKIN RESISTANCE

Garceau RECORDING PSYCHOGALVANOMETER

- For the study of the psychogalvanic reflex and skin resistance. The instrument is direct-reading and gives a written record of the reaction of the patient. Price ........ $775.00

Garceau CLINICAL DERMOMETER

For clinical and experimental investigation of disorders involving sympathetic reaction, such as pain reflexes. In the psychological laboratory, the instrument has a well-known application as a so-called "lie detector". Resistance is read directly from a calibrated dial. Small variations, greatly magnified, are shown on the meter. Battery operated. Price .... $115.00

ELECTRO-MEDICAL LABORATORY, INC.
New Address—SOUTH WOODSTOCK, VERMONT, U.S.A.
Pioneer manufacturers of the electroencephalograph
PERSONNEL PLACEMENT

Academic Position as Professor of Chemistry desired by Organic Chemist, Ph.D. Experienced teacher. Exceptional background of interest to college desiring a strong premedical program. Box 427, SCIENCE.

Bacteriologist, M.S., minors in Public Health and Biochemistry desires teaching position. Available immediately. Box 426, SCIENCE.

Biologist: M.S. Desires teaching position. Available September '51. Three years teaching experience in college. Biology, Genetics, Invertebrate Zoology, Histology, Botany. Box 429, SCIENCE.

Food Technologist, Ph.D.; five years' teaching experience (Food Technology); four years, director research, food manufacturing company; for further information, please write Science Division, Medical Bureau (Burneice Larson, Director), Palmolive Building, Chicago.

Medical entomologist—Pathologist—M.S., D.V.M. Fourteen years laboratory, field research. Experience in planning, administration, public health. Publications. Box 430, SCIENCE.

YOU reach over 32,000 scientists in these columns—at a very low cost

POSITIONS OPEN

Biochemist—450 bed hospital. Ph.D. preferred with thorough knowledge of spectrophotometry and flame photometry. Salary $5,000 or more depending on qualifications. Box 428, SCIENCE.

Electroencephalographer, Assistant, M.D. for large midwestern university hospital. We will train. Salary open. Please state experience (research). Box 423, SCIENCE.

Physicists, electronics engineers, mathematicians, mechanical engineers: Cornell Aeronautical Laboratory, an affiliate of Cornell University, has permanent positions open in fields of pure and applied physics for men with advanced degrees or experience in physics, electronics, applied mathematics and mechanical instrumentation. The position of our laboratory is between those of universities and commercial research institutes, and combines, we believe, many of the traditional advantages of both. The work is important, of course, in the present national emergency. Inquiries confidential; address Employment Manager, Department P, Cornell Aeronautical Laboratory, P.O. Box 235, Buffalo 21, New York.

Positions Open:
(a) Biochemist, Ph.D. with interest in study of nucleic acids, enzymes; research division, department of oncology, university medical school; opportunity for individual investigation; long term program; Middle West. (b) Biochemist and Bacteriologist, Ph.D.'s; large hospital; winter resort town, South. (c) Investigator, M.D. or Ph.D., qualified to conduct research in cancer relating to steroids; university center; East. (d) Biochemist, Ph.D.; experience in bacteriology; research department, pharmaceutical company; around $6,000. East. (e) Abstractor; knowledge of library science desirable; pharmaceutical company; East. (f) Physician to join research staff, large industrial company; research principally in toxicology; NYC. (g) Laboratory Director; M.A. or Ph.D.; to direct laboratory rendering technical service to teaching departments, basic sciences, dental school. Box 424, SCIENCE.

The MARKET PLACE

CHARGES and REQUIREMENTS
for "MARKET PLACE" Ads

1. Rate: 20¢ per word for classified ads, minimum charge $5.00 for each insertion. Such ads are set in uniform style, without display; the first word, only, in bold face type. For display ads, using type larger or of a different style than the uniform classified settings, and entirely enclosed with separate rules, rates are as follows:
   Single insertion $17.50 per inch
   7 times in 1 year $16.00 per inch
   13 times in 1 year $14.00 per inch
   26 times in 1 year $12.50 per inch
   52 times in 1 year $11.00 per inch

2. Payment: For all classified ads, payment in advance is required, before insertion can be made. Such advance remittances should be made payable to SCIENCE, and forwarded with advertising "copy" in instructions.

   For display advertisers, monthly invoices will be sent on a charge account basis—providing satisfactory credit is established.

3. Closing Date: Classified advertisements must be received by SCIENCE, 1515 Massachusetts Avenue, N.W., Washington 5, D. C., together with advance remittance, positively not later than 14 days preceding date of publication (Friday of every week).

For proof service on display ads complete "copy" instructions must reach the publication offices of SCIENCE, 1515 Massachusetts Avenue, N.W., Washington 5, D. C., not later than 4 weeks preceding date of publication.

BOOKS

Your sets and files of scientific journals are needed by our library and institutional customers. Please send us lists and description of periodical files you are willing to sell at high market prices. J. S. CANNER, INC., Boston 19, Mass. (Dept. A3).

Send us your Lists of SCIENTIFIC BOOKS AND PERIODICALS which you have for sale.

Complete libraries; sets and runs; and single titles are wanted.

Also please send us your want lists.

How to Increase Your Sales and PROFIT—at a very low cost...

Your sales message in an ad this size costs only $26.25 at the one-time rate—less for multiple insertions. And the results!—well, here's what one of the many satisfied advertisers in SCIENCE has to say...

"SCIENCE is consistently our most profitable medium. Business secured solely thro SCIENCE ads has been the backbone of our success in this field."

Prove to yourself the effectiveness of SCIENCE in increasing your Market, Sales, and PROFITS—send your "Copy" NOW—or write for further information and Rate card No. 27B.

SCIENCE weekly reaches over 32,000 top scientists
1515 Mass. Ave., N.W., Wash. 5, D. C.
We are clearing our shelves of surplus stock of back issues and make the following offer at these special prices—

**Back issues of Science, shipments of:**
- 1 to 20 copies ..... $.25 each
- 21 to 50 copies ..... $.20 each
- 51 to 100 copies ..... $.15 each
- 101 to 500 copies ..... $.12 each
- Over 500 copies ..... $.10 each

**Back issues of The Scientific Monthly, shipments of:**
- 1 to 6 copies ..... $.75 each
- 7 to 20 copies ..... $.60 each
- 21 to 50 copies ..... $.50 each
- 51 to 100 copies ..... $.40 each
- Over 100 copies ..... $.35 each

Orders at the above prices will be honored until May 1, 1951 for all available issues of our journals through December 1950, by—

Stechert-Hafner, Inc.

A Complete Electrophoresis and Schlieren Laboratory:

Built-in regulated and stabilized power supply ... no "B" batteries.

Integral refrigeration system ... no ice cubes.

Internal rapid dialysis facilities . . no additional refrigerator.

Base for sturdy support . . no special table or carriage.

All optics in air-conditioned space . . no drying agents.

Cells available for adsorption, diffusion, and macro-preparative work.

Price of the Aminco Portable Electrophoresis Apparatus, ready to plug in, and complete with cell, holder, and accessories required for immediate operation . . $3000, F.O.B. Silver Spring, Md.

An unretouched diagram, actual size, of pathological human serum.

WRITE FOR BULLETIN 2281-K

Apparatus Constants

Physical Dimensions—Base unit, 24 x 18 x 13 inches; over-all height, 46½ inches.

Optical Path Length—90 inches.

Screen Size—3¼ x 4¼ inches (standard cut film).

Magnification—2.

Temperature Control—plus-minus 0.02°C.

Current Range—1-30 milliamperes.

A.C. Ripple—less than 0.03% of total current.
Every Science Class should have this **WALL CHART**

This chart is invaluable for teaching microscopy or optics to science classes. It includes a simplified, easy-to-follow light path and both optical and mechanical nomenclatures.
