Contents

Mathematics in the USSR and the Five-Year Plan:
Robert J. Howerton and Paul W. Howerton .................................... 307
L. Cuénot: 1866–1951: Richard Goldschmidt ................................... 309
C. W. M. Poynter: 1875–1950: John S. Latta ................................... 310

Technical Papers
Metabolism of Tyrosine and Phenylalanine in Premature Infants: S. Z. Levine et al. .................................................. 311
Motion in the Solar Atmosphere as Deduced from Radio Measurements: Grote Reber .................................................. 312
On the Use of the Capital Letter Prefixes l and d: Hubert Bradford Vickery .................................................. 314
The Reported Adrenergic Blocking Action of β-Haloethyammonium Compounds: James F. Kerwin et al. .................. 315
Differentiation of Minimus Type C. diptheriae: Elizabeth I. Parsons and Martin Frobisher, Jr. .......................... 317
The Histochemical Demonstration of Succinic Dehydrogenase: A. M. Seligman and A. M. Rutenburg ............ 317
The Validity of Histochemical Phosphatase Methods on the Intracellular Level: Alex B. Novikoff .................. 320
Average Body Temperature in Mice: J. S. Hart .................................. 325
Cow Feces and Chick Development: H. W. Marlow .................................. 326
Radioactive Calcium in the Study of Additive and Native Supplies in the Soil: Henry C. Harris et al. .......... 328

Comments and Communications
Scholars and the Root of All Evil; Alcohol Metabolism;
Ecological Use of Meteorological Temperatures;
Photographic Reproduction of Laboratory Records Directly on Printing Paper ............................................. 330

Book Reviews
The Anatomy of the Gorilla; Treatise on Powder Metallurgy; Advances in Genetics; Encyclopédie
Entomologique; Renal Function .................................................. 335

News and Notes ........................................................................ 339
Smog in Space ....................................................................... 3
Meetings & Conferences ......................................................... 18
