The California Oath

Technical Papers

- Methonium Halides in High Blood Pressure: F. Horace Smirk
- A Test of the Infrared Absorption Theory of Olfaction: A. Theodore Forrester and Wm. E. Parkins
- The Potentiation of DDT against Resistant Houseflies by Several Structurally Related Compounds: Wooten T. Sumerford et al.
- Submarine Canyons: Francis P. Shepard
- Maleic Hydrazide as an Antiauxin in Plants: A. C. Leopold and W. H. Klein
- A Qualitative Analysis of Capsular Polysaccharides from Cryptococcus neoformans by Filter Paper Chromatography: E. Edward Evans and John W. Mehl
- The Relationship of Muscle Potassium to the Melanophore-concentrating Effect of Pressure on the Trout: O. H. Robertson
- Fluorometric Determination of Nicotinamide by Use of Synthetic Ion Exchange Resins: M. Kato and H. Shimizu
- The Use of K42-tagged Erythrocytes in Blood Volume Determinations: Rosalyn S. Yalow and Solomon A. Berson
- The Metabolism of Blastomyces dermatitidis, Antagonists to the Growth-inhibiting Effect of Trimeton Maleate: Frederick Reiss and Leona Caroline
- Visual Acuity and the Normal Tremor of the Eyes: Lorrin A. Riggs and Floyd Ratliff

Comments and Communications

Geology in the Grade Schools; Physiologic Limits of Vision; A Choice of Difficulties

Book Reviews

Natural and Synthetic High Polymers; The Principles of Cloud-Chamber Technique
