CONTENTS

Information, Measurement, and Quantum Mechanics:
Jerome Rothstein ........................................... 171

Technical Papers
Microscopy of Molecules: Marsden S. Blois, Jr. .................. 175
Peptide Structure and Denaturation of Proteins:
A. R. Goldfarb ................................................................ 177
A Method for Embedding Undecalcified Bone for Histologic
Sectioning: James S. Arnold ..................................... 178
A Simple Method for Extirpating an Experimental Tumor:
Paul A. Zahl ................................................................ 180
Tubal Malignancy—A Method for Collecting Specimens for
Cytologic Study: K. Sheldon MacLean .......................... 181
Action of Genes Affecting Secondary Sex Ratio
in Man: Marianne E. Bernstein ................................... 181
A Method for the Rapid Preparation of Histological
Sections: John A. Tornaben and Edwin J. de Beer .......... 182
An Apparatus for Determining Bone Density by Means of
Radioactive Strontium: F. Gaynor Evans,
Carl C. Coolbaugh, and Milton Lebow ....................... 182
Some Effects of High-Intensity Ultrasound on Tobacco
Mosaic Virus: Nelson Newton .................................. 185
Report on Fossil Vertebrates from the Upper Magdalena
Valley, Colombia: Donald E. Savage .......................... 186
Effects of Various Analgesics on Inflammatory Edema
Resulting from Silver Nitrate Injection:
Annette La Belle and John A. Tornaben ...................... 187
Levels of Nucleotide in the Blood during Shock:
G. T. Hoffmann, Antonio Rottino, and Harry Albaum ...... 188

Book Reviews
Die Binnengewässer; Patterns of Sexual Behavior;
Researches in Binocular Vision; Mathematical Engineering
Analysis; Petroleum Geology ..................................... 190

Association Affairs ............................................. 193

News and Notes .................................................. 195

National Bureau of Standards: A Semicentennial .......... 3

Meetings & Conferences ....................................... 12
