PHYSICAL BIOCHEMISTRY
Second Edition, by Henry B. Bull, Northwestern University Medical School. This new edition features a "relentless emphasis upon the interrelationship of the physical and the biological sciences and upon the value of a thorough understanding of purely physical phenomena in studying and interpreting biological systems." It includes latest information on modern methods and equipment. 1951. 355 pages. $5.75.

THE FORMATION OF MINERAL DEPOSITS
By Alan M. Bateman, Yale University. This is the first book to present a co-ordinated and integrated treatment of the origin of all mineral deposits—in simple language. Fundamental information is offered on the various means by which deposits that yield our mineral wealth have been formed and how they occur. A brief glossary explains technical terminology. 1951. 371 pages. $5.50.

FUNDAMENTALS OF SOIL SCIENCE
Second Edition, by C. E. Millar and L. M. Turk, both at Michigan State College. In this clear, well-organized presentation, the authors integrate new concepts with the basic problem—how to use the soil to best advantage. New features include a timely chapter on Soil Conservation and colored illustrations dealing with nutrient-deficiency symptoms. 1951. 310 pages. $5.50.

INTRODUCTION TO NUMBER THEORY
By Trygve Nagell, University of Uppsala. Offers a brief introduction to the most important results in the elementary theory of numbers. Many results and methods never previously published in book form are included; among them is Atle Selberg's elementary proof of the prime number theorem. 1951. 309 pages. $5.00.

FORESTRY IN FARM MANAGEMENT
Second Edition Revised by R. H. Westveld, University of Missouri. New research, new techniques, new developments, and new trends have revitalized this edition of a very successful book. It covers all phases of farm forestry and is applicable to all sections of the United States. Up-to-date information is given on power saws and tree planting machines; preservatives; shearing techniques; cutting, logging, soil preparation and slash disposal. 1951. 340 pages. $5.00.

ELEMENTS OF PLANT PROTECTION
By Louis Pyenson, Long Island A & T Institute. Brings together vital information on such plant pests as insects, rodents, birds, weeds, etc. Stressing the "know why" as well as the "know how" of this subject, this book fully covers plant protection from the standpoint of organisms, chemicals, practices, equipment, and principles. 1951. 536 pages. $4.96.

NEW BOOKS FOR AUGUST 31, 1951

**STYRENE**

By A. L. WARD and W. J. ROBERTS, Pennsylvania Industrial Chemical Corporation, Chester, Pa. $3.50

**SIX-MEMBERED HETEROCYCLIC NITROGEN COMPOUNDS WITH FOUR CONDENSED RINGS**

By C. F. H. ALLEN, Eastman Kodak Company, Rochester, N.Y. 1951. 358 pages, 7 illus., 40 tables. $10.00. Special price to subscribers, $9.00

This is the second monograph in the series, "The Chemistry of Heterocyclic Compounds", edited by Arnold Weissberger. This series will be complete in approximately thirty volumes.

**ENCYCLOPEDIA OF CHEMICAL TECHNOLOGY**

Complete in 12 Volumes

Edited by RAYMOND E. KIRK, Head, Department of Chemistry, Polytechnic Institute of Brooklyn and DONALD F. OTHMER, Head, Department of Chemical Engineering Polytechnic Institute of Brooklyn.

Assistant Editors: JANET D. SCOTT and ANTHONY STANDEN

Volume 7: FURNACES to IOLITE

**THE PECTIC SUBSTANCES**

By Z. I. KERTESZ, New York State Agricultural Experiment Station, Cornell University, Geneva, N.Y. 1951. 6 x 9. 640 pages, 46 illus., 66 tables. $13.50.

**THE CHEMISTRY AND TECHNOLOGY OF FOOD AND FOOD PRODUCTS**

Second completely revised and augmented edition in three volumes.

Edited by MORRIS B. JACOBS, Adjunct Professor of Chemical Engineering, Polytechnic Institute of Brooklyn, New York.

Volume I: 1951. 6 x 9. 858 pages, 78 illus., 110 tables. $12.00

Volume II: 1951. 6 x 9. 964 pages, 54 illus., 397 tables. $15.00

Volume III: In active preparation.

All books available on approval. Detailed description on request. Write for our catalog. 1951

PERSONNEL PLACEMENT

YOUR ad here reaches over 32,000 foremost scientists in the leading educational institutions, industrial laboratories, and research foundations in the U.S. and 76 foreign countries—at a very low cost.

CLASSIFIED: $1.50 per word, minimum charge $3.00. Use of Box Number costs 10 additional words.

DISPLAY: $17.50 per inch, no charge for Box Number.

Correct payment to SCIENCE must accompany all ads. Insertion usually made 2 or 3 weeks after receipt of ad.

SCIENCE • 1515 Mass. Ave., N.W., Wash. 5, D. C.

POSITIONS WANTED

Bacteriologist-Immunologist-Virologist, Ph.D. Broad teaching, research, and administrative experience, here and Orient. Publications. Desires teaching-research professorship. Box 599, SCIENCE.

Pharmacologist, desires relocation. Experience teaching and research. Publications; administrative ability. Box 1, SCIENCE.

Positions Wanted:
(a) Research Director; Physician (Ph.D. Pharmacology, Physiology); four years' teaching experience; eight years, director, research foundation; (b) Physical Chemist; Ph.D. three years' teaching; eight years, chief physicist, industrial company. For further information, please write Science Division, Medical Bureau (Burnice Larson, Director) Palmotive Building, Chicago.

STUDENTS—EMPLOYERS

Take advantage of the summer months with part-time positions. Students seeking valuable practical experience and employers in need of additional help can secure thru a low-cost, effective classified ad in SCIENCE.

Positions Open:
(a) Physician or Ph.D. with physiological background and biochemical training; important research post with one of major pharmaceutical companies. (b) Supervisor of production; small but well established company; broad experience in production of various pharmaceuticals required; opportunity for interesting career. (c) Research associate in virology; should be trained in general basic techniques of virology including tissue culture; teaching opportunity; state university. (d) Bacteriologist to direct research department, chemical laboratories; East. (e) Histopathologist; preferably experienced in research on tumor pathology; research post, agricultural college. (f) Director, pharmaceutical research physician with previous approved research; pharmaceutical company; Midwest. (g) Research Associate; preferably Ph.D. or M.D., with special interest in bacteriology or zoology; training in tissue culture or enzymology necessary. (h) Principal, medical school department of obstetrics-gynecology. S. S. Science Division, Medical Bureau (Burnice Larson, Director) Palmotive Building, Chicago.

POSITIONS OPEN

Histochemist: Research Institute on campus leading midwest university has research position open now. Excellent opportunity. Box 596, SCIENCE.

Ph.D. or M.D. with training in virological research. No routine diagnostic work. Interest and experience in poliomyelitis and other neuropathic viruses desirable. Animal and serological work. Full time research with early opportunity to direct laboratory. Box 600, SCIENCE.

SENSITIVITY DISKS

Bacto-Sensitivity Disks are sterile paper disks containing known amounts of the more commonly employed antibiotics.

Bacto-Sensitivity Disks are used in determining the relative sensitivity of microorganisms to antibiotics.

Bacto-Sensitivity Disks are available in three concentrations of the following antibiotics:

- PENICILLIN
- STREPTOMYCIN
- CHLOROMYCETIN®
- TERRAMYCIN
- DIHYDROSTREPTOMYCIN
- AUREOMYCIN

DIFCO LABORATORIES
