Relationship of Glandular Mucoprotein from Human Gastric Juice to Castle's Intrinsie Antianemic Factor:
George B. Jerzy Glass et al. ................................................................. 101

News and Notes
Symposium on the Evaluation of Optical Imagery:
Irvine C. Gardner ............................................................................. 108

Technical Papers
Translocation of Streptomycin in Bean Plants and its Effect on Bacterial Blights: John W. Mitchell, William J. Zaumeyer, and W. Powell Anderson .................................................. 114
Metabolism of Δ1-Androstene-3,17-Dione: Frank Ungar and Ralph I. Dorfman ........................................ 115
Protection of Escherichia coli against Ultraviolet Radiation by Pretreatment with Carbon Monoxide:
Roy B. Mefferd, Jr., and Thomas S. Matney ........................................ 116
Study of the Light Metal Carbonyls Formed by the Reaction of Carbon Monoxide with Light Metals Dissolved in Liquid Ammonia: Arthur F. Scott ......................................................... 118
Localization of Brain Tumors with Radioiodide131: Shelley N. Chou, George E. Moore, and James F. Marvin 119
Mechanical Group Therapy: Ernst Schmidhofer .................................. 120
Water of Crystallization in the Plant-Growth Regulator α-Naphthaleneacetic Acid and its Salts: Willis A. Gortner 122
Increased Mast Cells in the Thymus of X-Irradiated Hamsters: Margaret A. Kelsall and Edward D. Crabb 123
Tetrahydropyrimidine Derivatives as Potential Foliage Fungicides: Wm. E. Rader, C. M. Monroe, and R. R. Whetstone 124

Comments and Communications
Dorothy J. Gore, Ernest R. M. Kay, and William Schriever 125
