## Contents

Carboxylation Reactions and Photosynthesis:
*Severo Ochoa and Wolf Vishniac* ........................................ 297

James Fitton Couch: 1888–1951: B. A. Brice .................................. 301

### News and Notes

### Technical Papers

- Relation of Prothrombin to the Prolongation of Clotting Time in Aestivating Ground Squirrels: *Arthur Seihla, Howard Bowman, and Ruth Ritenour* ........................................ 306
- Inactivation of Influenza Virus and of Viral Hemagglutinin by the Ciliate *Tetrahymena geleii*: *Vincent Groupe* and *Leonora H. Pugh* .................................................. 307
- The Importance of Protective Urinary Colloids in the Prevention and Treatment of Kidney Stones: *Arthur J. Butt* and *Ernst A. Hauser* .................................................. 308
- Multicurie Cobalt 60 Units for Radiation Therapy: *A. Morrison* et al. .......................................................... 310
- Absorption of DDT in Houseflies over an Extended Period: *Robert A. Hoffman* et al. .................................................. 312
- The Accumulation of Serum Cholate and its Relationship to Hypercholesteremia: *Meyer Friedman, Sanford O. Byers,* and *Ray H. Rosenman* .................................................. 313
- Growth of the Scutellum of Maize in Culture: *Carl D. LaRue* ........................................................................... 315
- Perchloric Acid Extraction of Ribose Nucleic Acid from Cytological Preparations: *Henry S. Di Stefano* ......................... 316

### Comments and Communications

*William C. Boyd, A. A. Buzzati-Traverso, Peter Gray,*
*Irwin D. London,* and *Fred T. Shultz* ..................................... 318

### Book Reviews

*Chemistry of Wood; Ruwenzori Expedition 1934–5: Muscidae* .... 320

### Source Books in Science .......................................................... 3

### Meetings & Conferences .......................................................... 16
