HERE is a new revision of a text well-known for its logical arrangement of material, its clear, simple style, its fine illustrations, and its fair balance between botany and zoology.

GENERALLY revised and brought up-to-date, the 4th edition is slightly shorter than its predecessor. There are many new illustrations, and new sets of questions have been provided at the ends of the chapters. An interesting discussion of the work of von Frisch on the Language of Bees is included in the chapter on Arthropods.

A MANUAL, Laboratory Exercises in General Biology, 4th Edition, has been prepared to conform with the new edition of the text.

Published 1952—$5.75, the text
$3.50, the manual
PERSONNEL PLACEMENT

YOUR ad here reaches over 32,000 foremost scientists in the leading educational institutions, industrial laboratories, and research foundations in the U. S. and 76 foreign countries—at a very low cost.

CLASSIFIED: 15¢ per word, minimum charge $3.00. Use of Box Numbers counts as 10 additional words.

DISPLAY: $17.50 per inch, no charge for Box Number. Correct payment to SCIENCE must accompany all ads. Insertion usually made 2 or 3 weeks after receipt of ad.

SCIENCE & 1515 Mass. Ave., N.W., Wash. 5, D. C.

POSITIONS WANTED

Bacteriologist (Medical): M.D., D.Sc. (Med.) this June, large eastern university. Desires academic or research position. Box 213, SCIENCE.

Biochemist, Ph.D. Experience in teaching, research, and clinical chemistry. Box 214, SCIENCE.

Chemist, College teaching, M.S., analytical chemistry. 25 yrs. additional graduate work. 12 yrs. teaching experience, analytical, general, organic. Box 202, SCIENCE.

Positions Wanted:

Biochemist; Ph.D. particularly well trained in mammalian physiology and biochemistry as related to endocrine function; five years teaching and research in industry. Further information, please write Science Division, Medical Bureau (Burnette Larson) Palomino Building, Chicago X.

Chemist, College teaching, M.S., analytical chemistry. 25 yrs. additional graduate work. 12 yrs. teaching experience, analytical, general, organic. Box 202, SCIENCE.

Medical Secretary with endocrine research group. F. X. Gassner, Colorado A and M College, Ft. Collins, Colorado.

Positions Open:

(a) Physician, preferably internist, interested in medical writing; newly created post, one of many new positions. Duties: 80% medical writing, 20% clinical medicine or research.

(b) Chief, industrial health research department. Ph.D. or M.D., trained toxicology, clinical physiology, industrial health; duties include medical search, supervising staff of bioengineers, research technicians; East (c) Director of Research; Ph.D. or M.D., should have flair for pure research; duties include some development work; East.

(d) Professor of Chemistry, Ph.D. qualified to teach analytical and physical chemistry; West (e) Physiologist or Pharmacologist, Ph.D. duties: primarily research involving cardiovascular phenomena; one of leading pharmaceutical companies.

(f) Assistant Director, Veterinary Literature; duties involve literary research; East (g) Clinical Psychologist; newly established mental hygiene clinic, well supervised; college town, Northwest.

S-5 Science Division, Medical Bureau (Burnette Larson) Palomino Building, Chicago.

Physiologist, rank up to associate professor. Light teaching schedule in medical physiology. Broad research program autonomic integration, somatic-autonomic reflexes, pain mechanisms, viscerol reflexes, neuro-muscular function. Experience in neurophysiology valuable, but not required. Well equipped laboratories. Excellent opportunity. Inquire please state training, experience, salary requirements. Box 204, SCIENCE.

Research and Teaching Assistantship in Pharmacology Dept. Positions open fluid electrolyte balance and renal function. Well equipped laboratories. Growing, progressive institution, intellectually stimulating, friendly atmosphere. Qualifications: M.S. or equivalent experience in clinical chemistry, pharmacology or physiology. State training, laboratory experience and salary requirements in first letter. Box 203, SCIENCE.

The MARKET PLACE

SCIENTISTS—salaried positions, $3,600 to $25,000. This confidential service for outstanding men who desire a change of connection, will develop and conduct preliminary negotiations without risk to present position. Send name and address for details.

TOMSETT ASSOCIATES 353 Frick Bldg., Pittsburgh 19, Pa.

TECHNICAL EDITOR

Rapidly growing research organization (both fundamental and applied) requires first-class man to advise in the initial drafting, and carry out the final processing, of scientific and technical communications. This man must be capable of working with project supervisors toward the clear and accurate expression of research concepts and results. A science degree and published research, plus some writing experience, are therefore essential. Academic and industrial experience are both desirable. Salary commensurate with qualifications; permanent position; central location in Montreal.

Reply, giving full résumé of career, to Employment Office.

PULP AND PAPER RESEARCH INSTITUTE OF CANADA 3420 University St., Montreal, Quebec.

Fractionation Problems?

Here's help for you...

This tireless servant in your laboratory will automatically collect any number (up to 200) of rigidly controlled samples of predetermined fluid volumes. Each collected sample may comprise any number of drops from one to four hundred. As each separate sampling is completed, the carriage automatically advances to repeat identical collections consecutively until the whole fractionation has been made.

All you have to do is to set it up for the conditions of the chosen experiment, short or long, and then leave it alone. The machine will plod along without attention hour after hour, all day (and night) long. When the job's done, it will shut itself off.

The Technicon Fraction Collector has been thoroughly tested in actual laboratory installations, where it has proven invaluable to busy research staffs. We shall be happy to send you details.

Saves time and labor
- Relieves laboratory staff of the fretful and time-consuming chore of fraction-cutting: releases workers for other duties.

Triples work output
- You can run it twenty-four hours a day, continuously, to triple fractionation output as compared with an 8 hour laboratory day.

Gives greater resolution
- By collecting a large number of small fractions, rather than a few gross ones, you'll get more data from a given fractionation, e.g. a chromatogram, or a fractional distillation.

Assures accuracy
- Because the possibility of human error is automatically ruled out. Now fraction-collection becomes a straightforward mechanical procedure.

Technicon automatic fraction collector

Technicon Chromatography Corp.,
215 East 149th Street,
New York 51, N. Y.

Send me detailed information on the Technicon Automatic Fraction Collector.

This NEWEST Series of AO Spencer
Phase Microscopes

... is another achievement by AO Spencer Scientists who have played a prominent role in the development of phase microscopy. Today "Phase" is being widely adopted in both research and routine microscopy for studying living organisms and other materials of inherently low contrast. The usefulness of this technique has been greatly increased by the variety and versatility of AO Spencer equipment.

This new series of instruments combines the advantages of "Phase" with the recent mechanical advancements in AO Spencer Microscopes. Write for free booklet to Dept. E5.

* RESPONSIVE FINE ADJUSTMENT
   Placed conveniently low. Calibrations accurate throughout entire range of travel. Backlash is eliminated.

* CUSTOM TENSION ADJUSTMENT
   Substage and coarse focusing tension instantly set to suit your touch.

* NEW "PINCH GRIP" MECHANICAL STAGE
   Rapid insertion of slides without disturbing mechanical adjustments.

* PHASE TURRET CONDENSER
   Easy to rotate. Interchangeable annular diaphragms, parcenterable to four phase objectives. Centerable mount for accurate alignment in substage.

* WIDE SELECTION OF OBJECTIVES
   Bright, Dark, B Minus Contrast in gradations to meet individual needs.
