SCI ENCE

OCTOBER 3, 1952

VOLUME 116       NUMBER 3014

Annual Equipment Issue

Adiabatic Demagnetization and the Temperature Scale Below 1° K: D. de Klerk ................................................................. 335
The Present Status of Temperature Scales: H. F. Stimson ................. 339
An Automatic Counter for Age Determination by the C¹⁴ Method: H. R. Crane and E. W. McDaniel ........................................... 342

News and Notes

National Instrument Conference and Exhibit: W. A. Wildhack ........... 348

Technical Papers

A Device for High-Intensity, Vacuum-Irradiation of Small Samples at Controlled Temperatures: C. S. Bachofer ......................... 354
An Oscillographic Plethysmograph Using a New Type of Transducer: F. A. Simeone et al. ................................................. 355
A Quickly Made Dielectric Constant Cell: Reuben E. Wood .............. 358
A Culture Technique for the Diagnosis of Infections with Dermocystidium marinum Mackin, Owen, and Collier in Oysters: Sammy M. Ray ................................................................. 360
An Apparatus for Microscopic Study of Frog Heart in Situ: Burrill Freedman ............................................................... 362
Perfect Demarcation of the Diamond Crystal Structure in Germanium: S. A. Robinson et al. ........................................... 362
The Pirani Gauge: George Glockler and Sister Helene Ven Horst ................................................................. 364

Comments and Communications

Raymond W. Cunningham, Edna R. Gill, M. T. Gordon, B. K. Harned, T. W. Kethley, Clyde Orr, Jr., Howard Sigmon, and Charles D. Stevens .......................... 368

Book Reviews

Air Pollution; Electronic Analog Computers; Modern Chemical Processes ................................................................. 371

Instrumentation, Science, and Technology .................................................. 3

Meetings & Conferences .................................................................. 42
