Contents

Some Aspects of Neutron Single Crystal Analysis: Ray Pepinsky — 1
Hugo Iltis: 1882–1952: L. C. Dunn ............................................. 3

News and Notes ....................................................................... 4

Technical Papers

The Disposition of Intraperitoneally Injected Foreign Matter in Amphibia: Thomas W. Easton .................................................. 8
Radioactivity Induced in Yeast by 100 Mev X-Radiation: G. C. Baldwin and Leonard B. Clark ............................. 9
Developmental Forms of Vaccinia Virus: William H. Gaylord, Jr., and Joseph L. Melnick .................................................. 10
Crown Gall Suppression by Anti-Auxin: Paul E. Waggoner and A. E. Dimond ............................................................... 13
The Effect of Triphenyltetrazolium Chloride on Oat Embryo Respiration: Glyn O. Throneberry and Frederick G. Smith 13
Stabilities of Metal Derivatives of o-Substituted Azo Dyes: Fred A. Snavely and W. Conard Fernelius .................................. 15

Comments and Communications

S. R. Bose; M. W. Garretson; Joel W. Hedgpeth, Robert J. Menzie, Cadet H. Hand, and Martin D. Burkenroad; Francis Hemming; Akira Horita and Theodore C. West; and Phillip H. Mann and Italo Fratta ..................................................... 16

Book Reviews

Microscopic Histochemistry; The Advance to Social Medicine; The Principles of the Control and Stability of Aircraft; Statistical Theory with Engineering Applications; Prelude to History; Frost Action in Soils ......................................................... 19

Scientific Book Register ....................................................... 22

Standard Samples .................................................................. 3

Meetings & Conferences ...................................................... 10
