Organometallic and Organometalloidal Compounds Containing Fluoroalkyl Groups: H. J. Emeléus and R. N. Haszeldine 311

The International Astronomical Union: Otto Struve 315

News and Notes
American Anthropological Association: William A. Lessa 318

Technical Papers
Eocene Foraminifera from Guam, and their Implications: Preston E. Cloud, Jr., and W. Storrs Cole 323
Audiogenic Seizure and the Adrenal Cortex: Wm. P. Hurder and A. F. Sanders 324
Nutritive Value of Rust-infected Leaves: C. E. Yarwood, Alice P. Hall, and Marjorie M. Nelson 326
The Nature of Genetic Resistance to Infection in Mice: J. A. Weir, R. H. Cooper, and R. D. Clark 328
A High-Temperature Strain of Chlorella: Constantine Sorokin and Jack Myers 330
Metabolism and Removal of Ca\textsuperscript{45} in Man: Judith Bellin and Daniel Laslo 331
Agglutinin Linkage and Antibody Globulins: G. W. G. Bird 334
Motor Nerve Filament Block Produced by Botulinum Toxin: Vernon B. Brooks 334

Comments and Communications
Altman's Theory of Economic Cycles: George R. Price and George T. Altman 335
Shipments of Animal Disease Organisms and Vectors: Hugh C. McPhee 339
Parameters for the Description of Transition States: John E. Leffler 340
