Arthur H. Thomas Company was the first to introduce "Pyrex" brand Laboratory Glassware. This was in October, 1915, and since that date we have continued as the leading distributor of this ware.

Practically all of the more than 2,000 sizes and shapes listed in the current 190-pp catalogue of the Corning Glass Works, and supplements thereto, under the brands, "Pyrex", "Vycor" and "Corning" have been established by us as regular catalogue and stock items. This constitutes the widest assortment of this ware available from any distributor.

We are, therefore, prepared to make immediate shipment of orders specifying large quantities of a wide variety of sizes and shapes.

GET YOUR ADVANCE COPY

of the General Program-Directory
of the Boston Meeting of the AAAS

By first class mail — early in December

The General Program-Directory of the 120th Meeting of the AAAS in Boston, December 26–31, 1953, will be available to anyone, at cost, within the first week in December—whether he can attend the Meeting or not. You will want the General Program-Directory for your reference shelf.

Program content

1. The General Symposia: "Species Which Feed Mankind" and "The Sea Frontier."
2. Programs of the 18 AAAS sections and subsections (symposia and contributed papers).
3. Programs of the more than 40 participating societies.
4. The Special Sessions: AAAS, Academy Conference, Conference on Scientific Editorial Problems II, Conference on Scientific Manpower III, British AAS, National Geographic Society, Phi Beta Kappa, RESA, Sigma Xi.
5. Details of the Mechanics Building and downtown hotels.
6. Titles of the latest foreign and domestic scientific films to be shown in the AAAS Science Theatre.
7. Exhibitors in the 1953 Annual Exposition of Science and Industry and descriptions of their exhibits.

Directory content

1. AAAS officers and staff for 1953.
2. Complete roll of AAAS presidents and their fields.
3. The 245 affiliated organizations.
4. Historical sketch and organization of the Association—and the new Constitution and Bylaws.
6. AAAS Awards and Grants—including all past winners.
7. Membership figures by sections.
8. Section committees (Council members) in detail.
9. Local committees.

Advance Registration

Advance registration has these decided advantages: 1) You avoid delay at Registration Desks upon arrival; 2) You receive the General Program-Directory in ample time, unhurriedly, to decide among events and sessions you particularly wish to attend; 3) Your name is posted in the Visible Directory as the Meeting opens.

The following coupon may be used both by advance registrants and by those who wish only the advance copy of the General Program-Directory.

——— THIS IS YOUR COUPON FOR AN ADVANCE COPY OF THE GENERAL PROGRAM-DIRECTORY ———

1a. □ Enclosed is $2.50 for my advance Registration Fee which brings me the Program-Directory, Convention Badge, and all privileges of the Meeting.

1b. □ Enclosed is $1.50 for only the Program-Directory. (It is understood that, if I should attend the Meeting later, the Badge—which is necessary for all privileges of the Meeting—will be secured for $1.00 more.) (Check one)

2. FULL NAME (Dr., Miss, etc.) .......................................................... (Please print or typewrite) (Last) (First) (Initial)

3. ACADEMIC, PROFESSIONAL, OR BUSINESS CONNECTION ..............................................................................................................................

4. OFFICE OR HOME ADDRESS ............................................................ (For receipt of Program-Directory)

5. YOUR FIELD OF INTEREST ................................................................

6. CONVENTION ADDRESS .................................................................... (May be added later, after arrival)

Please mail this Coupon and your check or money order for $2.50 or $1.50 to the AMERICAN ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE
1515 Massachusetts Avenue, N.W., Washington 5, D. C.
A NEW (Revised) EDITION
OF A TEXTBOOK WHICH
HAS PROVED ITS WORTH

PHYSICAL CHEMISTRY
For Students of
Biology and Medicine
by
David Ingersoll Hitchcock, Ph.D.
Associate Professor of Physiology
Yale University School of Medicine

The is the ideal text for the one-semester course in Physical Chemistry for non-chemistry majors. It has been out of print for several years, and the fourth edition by a new publisher is destined to again become the most widely used text in its field.

Problems at the end of each chapter. A completely new section of 14 laboratory experiments makes a separate laboratory manual unnecessary.

Copies sent to teachers for class consideration entirely without obligation. Write for your copy today.

288 pages 31 illustrations $5.00

"The new Pearse bids fair to become the leader"
Review in ENDOCRINOLOGY

HISTOCHEMISTRY
Theoretical and Applied
By A. G. Everson Pearse
Lecturer in Histochecmistry at the Postgraduate Medical School (University of London)

This book is an endeavor to compass the whole of histochecmistry as applied to tissue sections. It deals solely, therefore, with the theoretical and practical aspects of Microscopical Histochecmistry.

TECHNICAL APPENDICES TO EACH CHAPTER
530 pages, 109 illus., 4 color plates $12.00

THE PHYSICAL SOCIETY

MEMBERSHIP of the Society is open to all who are interested in Physics.

Fellows pay an Entrance Fee of £1 1s. and an Annual Subscription of £2 2s.

Students. A candidate for Studentship must be between the ages of 18 and 26 and pays only an Annual Subscription of 7s. 6d.

Fellows and Students may attend all MEETINGS of the Society and are entitled to receive many of the publications at reduced rates.

PUBLICATIONS. The Physical Society publishes scientific literature covering a wide field.

The Proceedings of the Physical Society—published monthly in two sections. Subscription for non-Fellows £3 5s. p.a. per Section; £9 9s. p.a. for both Sections.

Reports on Progress in Physics—an important publication containing papers by qualified physicists.

Volume XVI, 1953, is now available (price 50s., 27s. 6d. to Members, plus 1s. 6d. postage).

CONTENTS
G. E. Bacon and K. Lonsdale—Neutron Diffraction.
W. A. Wooster—Physical Properties and Atomic Arrangements in Crystals.
A. C. Menzies—Raman Effect in Solids.
B. Bleaney and K. W. H. Stevens—Paramagnetic Resonance.
F. Llewellyn Jones—Electrical Discharges.
C. W. McCombie—Fluctuation Theory in Physical Measurements.
W. H. McCrea—Cosmology.

Further information can be obtained from:

PERSONNEL PLACEMENT

YOUR ad here reaches over 32,000 scientists in the leading educational institutions, industrial laboratories, and research foundations in 77 countries— at a very low cost.

CLASSIFIED: 18¢ per word, minimum charge $3.60. Use of Box Number counts as 10 additional words.

DISPLAY: Rates listed below—no charge for Box Number. Monthly invoices will be sent on a charge account basis—provided that satisfactory credit is established.

Single insertion $19.50 per inch
7 times in 1 year 17.50 per inch
13 times in 1 year 16.00 per inch
26 times in 1 year 14.00 per inch
52 times in 1 year 12.50 per inch

For PROOFS on display ads, copy must reach SCIENCE 4 weeks before date of issue (Friday of every week).

POSITIONS WANTED

(1) Biochemist: Ph.D., 34, 5 years' research and organic chemist, industrial; 2 years, associate, research institute; 1 year fellow enzyme chemistry, university; past 3 years research association, medical university; seeks industrial, academic biochemical, research facility; university instructor, any location. (2) Bacteriologist: Ph.D., 33, 1 year teaching assistant, university; 1 year assistant professor, university; seeks research, teaching, manuscript editorial, any location. For further information, please write, Science Division, Woodward Medical Bureau, 185 North Wabash, Chicago.

(a) Biochemist: Ph.D., three years' teaching; four years, biochemistry and associated laboratories; 400-bed hospital.
(b) Microbiologist, Ph.D.; specialty: microbial fermentations, especially enzymes, pigments, antibiotics; recently completed postdoctorate fellowship. Please write Science Division, Medical Bureau (Burneice Larson, Director) Palmolive Building, Chicago.

Ecologist and Plant Taxonomist. Ph.D. Experienced research worker, teacher, author of several books; approaching compulsory retirement age; in Government Service but still full of pep; would like employment in herbarium, research, field, or educational work, either part or full time, preferably, not necessarily in southwest. Available after January first, 1954. Box 179, SCIENCE.

Glassblower with 22 years experience in scientific glass apparatus, high vacuum apparatus, glass to metal seals, tubes, glass lathe work, etc. Box 168, SCIENCE.

Microbiologist, Ph.D. 3 years' graduate work, 3 years industrial research antibiotic fermentations. Desires responsible industrial or academic position. Box 173, SCIENCE.

Pharmacologist, Ph.D., 35, married, children, desires teaching and/or research. Experience CNS drugs, antidepressant, psychosis; cardiovascular and local anesthetics. Available reasonable notice. Box 169, SCIENCE.

POSITIONS OPEN

(1) Biochemist, Physiologist: Ph.D., experienced field of fluid and electrolyte metabolism with isotope, 250-bed hospital, medical college affiliation; industrial city. (2) Bacteriologist: Ph.D., scientific research, two year contract; $7000, foreign. For further information, please write Science Division, Woodward Medical Bureau, 185 North Wabash, Chicago.

(a) Biologist particularly well trained in histology and cytology: duties consist of assisting in problems involving electron microscopy of ultra thin tissue sections; M.A. or Ph.D. (b) Pharmacologist, M.D. or Ph.D., to conduct research on pharmacodynamic action of drugs; minimum three years' experience, pharmaceutical industry required; East. (c) Bacteriologist: Ph.D.; university instructorship; Midwest. (d) Bacteriologist and chemist; medical school research projects; both may work toward advance degrees; West. (e) Assistant laboratory director; preferably Ph.D.; duties: supervising highly specialized technical work; 600-bed general hospital; Midwest; $5500, 91 Science Division. Medical Bureau (Burneice Larson, Director) Palmolive Building, Chicago.

Histological Technician with good basic training in histology and experience in technique. Box 172, SCIENCE.

POSITIONS OPEN

Progressive Eastern pharmaceutical company desires competent, well-trained pharmacologist of demonstrated research ability to join research staff engaged in broad investigation of new medicinal agents. Opportunity for advancement and publications. Salary commensurate with ability and experience. Our employees know about this opening. Box 158, SCIENCE.

Scientific Writer—Young M.D. or person with equivalent training in medical science with literary interest and talent to write technical material for the medical profession. Work involves interpretation of laboratory and clinical data on new drugs explaining composition, application, use, therapeutic action of new drug discoveries for F.D.A., scientific publications, and practising physicians. Large midwestern ethical pharmaceutical research and manufacturing organization.

For further details, please write Box 159, Science.

Modern Lovibond Tintometer and Comparator with Standard discs for all research and clinical tests. B.D.H. accurate indicators. Will sell all or any part. T. G. Walshe, Box 345, Oyster Bay, L. I., N. Y.
Finest Japanese Optics and Workmanship

Built to our specifications. Priced far below comparable values. Be assured of a lifetime of excellent performance. Equal to the world's finest optical instruments.

Greenough Type Stereo-Microscopes (Model UGA)

Used by biological laboratory and students, mineralogical labs, and factories. Excellent for dissecting and mineralogical work. Includes three paired wide-angle eyepieces: 5X, 10X, 15X. Three objectives: 2X, 4X, 10X. Magnification: 10X to 150X. Wt. in carrying case: 11 lbs.

**$225.00**

Binocular Microscope (Model E 3 N)

Used by research technicians, physicians and scientists. Instrument complete for visual and photomicrography. Includes Monocular tube for photomicrography. Calibrated mechanical stage. 3-Lens NA 1.3 Condenser. Calibrated ABBE DECENTERING device. Calibrated Condenser Diaphragm. Substage revolves for Polaroid work. Four nosepieces: Chromatic, 5X, 10X, 40X, 100X. Coated. Three eyepieces: Huygenian, 5X, 10X, 15X. Magnification: 25X to 1500X with monocular tube, increased 50% with binocular tube.

Chemistry of Food and Nutrition

first in its field for forty years . . .

by Henry Clapp Sherman

Dr. Sherman's Chemistry of Food and Nutrition has been almost indispensable to food chemistry teachers since it was first published in 1911. Like its predecessors, the eighth edition is outstanding for—

. . . including all the principles of food chemistry and nutrition, as well as all the scientific facts necessary for a sound background in nutritional science and its practical applications.

. . . constantly stating the degree of certainty with which each fact is regarded and thus giving the student a true picture of the frontiers of nutrition knowledge.

. . . adapting readily to courses of varying lengths and levels by setting off in small type material not essential to the shorter course.

. . . providing an unusually fine guide to the literature of the field in the extensive lists of references at the end of every chapter.

The eighth edition incorporates three entirely new chapters—FOLIC ACID, VITAMIN B12, AND THE CITROVORUM FACTOR; TRENDS IN FOOD CONSUMPTION; and IMPROVEMENT OF ALREADY NORMAL NUTRITION. Brought up to date throughout, it includes new material on amino acids, dietary calcium levels related to development, niacin metabolism significance of optimal intake of Vitamin A, growth experiments as a research tool, detailed comparison of cereal grains, latest National Food Council Recommended Allowances, and many others. 1952. 721 pp. $6.00.

Science Teachers Report

A GREAT TIME SAVER IN TEACHING

THE SPENCER SCHOLAR'S MICROSCOPE

HOW THE AO No. 78 SCHOLAR'S MICROSCOPE CUTS TEACHING TIME

1. Easy to learn to use.
2. Single focusing control—fast and precise.
3. Factory-focused built-in light source eliminates time consuming and frequently faulty substage adjustments.
4. Reversed arm position gives clearer view of specimen stage, objectives, and diaphragm openings.

Since we are currently supplying both military and civilian needs, instrument deliveries cannot always be immediate.

- The reports keep coming in—yes, the AO Scholar's Microscope does save time in teaching students microscopy.

This radically new idea in microscopes has proven a boon to science teachers. The built-in light source assures permanently aligned illumination and consequently better optical performance with much less adjustment. Low overall height increases comfort in operation. Locked-in parts reduce maintenance costs. 'Spring-loaded' focusing mechanism protects slides against damage. See your AO distributor or write Dept. W1.
