SCIENCE

NOVEMBER 13, 1953

VOLUME 118 NUMBER 3072

Contents

National Academy of Sciences: Abstracts of Papers Presented at the Autumn Meeting, November 9-11, 1953 .......................................................... 567

Symposium on Neurosecretion at Naples, Italy: Ernst Scharrer and Berta Scharrer ............................................ 579

Friends of Pleistocene Glacial Geology Field Meeting, Ayer Quadrangle, Massachusetts: L. W. Currier ......................... 580

Vitamin B12 Conference: Robert A. Harte and Bacon F. Chow ........... 582

News and Notes ............................................................................................................. 584

Technical Papers

Different I.Q.'s for the Same Individual Associated with Different Intelligence Tests: Ralph Mason Dreger .................. 594

The Oxidative Deamination of Serotonin and Other 3-beta-Aminoethyl)-indoles by Monamine Oxidase and the Effect of These Compounds on the Deamination of Tyramine: Wm. M. Govier, Bennett G. Howes, and Anna J. Gibbons .... 596

The Appearance of Amoebae Tracks in Cultures of Dictyostelium discoideum: Richard B. Paddock ....................... 597

Conformity to Social Norms and Attraction to the Group: Everett W. Bovard, Jr. ......................................................... 598

The Tetrakaidecahedron as the Basis for the Computation of Cell Volume and Dentistry: Donald Thomas Chalkley ........ 599

An Effect of Negative Assertative Mating on Gene Frequency: Ray Moree .............................................................. 600

Weather Influence in Blue Comb in Chickens: Glenn Van Ness .... 601

The Effect of a Noxious Stimulus in Man on the Antidiuretic Activity of the Blood: I. Arthur Mirsky and Marvin Stein ..... 602

Comments and Communications: Histamine in Mast Cells: W. E. Ehrich; Calomel Half Cells to Measure Donnan Potentials: K. J. Myseis; Dubious Experimental Procedures in Biology: Earl W. Henderson ................................................. 603

Book Reviews: Human Behavior; Praktische Arbeitsphysiologie .... 605

Scientific Book Register .................................................................................................. 606

Southern California Academy of Sciences ............................................. 3

Meetings & Conferences ............................................................................................... 16
