Contents

High-Frequency Scatter Sounding Experiments at the National Bureau of Standards: Richard Silberstein ........................................... 759
Introducing a New Editor of the A.A.A.S. Journals .......................... 763
Scientific Property: Lawson M. McKensie .................................. 764

News and Notes
Symposium on Photoperiodism: John Buck; Science in 1953 as Presented to the Public .................................................. 768

Technical Papers
Failure of Mercaptoethylamine to Protect against the Mutagenic Effect of Radiation. I: Experiments with Drosophila: W. D. Kaplan and Mary F. Lyon ........................................... 776
Failure of Mercaptoethylamine to Protect against the Mutagenic Effects of Radiation. II: Experiments with Mice: W. D. Kaplan and Mary F. Lyon ........................................... 777
Preparation of High-Purity Lithium Metal by Vacuum Distillation: P. S. Baker, F. R. Duncan, and H. B. Greene ........................................... 778
Differential Dietary Choices of Albino Rats Occasioned by Swimming: William J. Griffiths, Jr., and T. J. Gallagher ........................................... 779
Fractions of Human Milk and Virus Multiplication: Klaus Hummeler et al. .................................................. 781

Comments and Communications
2,4-D Herbicides Pose Threat to Cotton and Other Susceptible Crops: Ross E. Hutchins; Malignant Tumors and High Polymers: Andrew F. Fitzhugh et al.; Fashions in Medicine and Science: Roland Fischer ........................................... 782

Book Reviews
Histochemistry; Measurement Techniques in Mechanical Engineering; Toxicity of Industrial Organic Solvents ........................................... 785

Society of General Physiologists .................................................. 3
Meetings & Conferences ............................................................ 8
Index to Volume 118 ................................................................. 1

AMERICAN ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE
