Contents

Professional and Scientific Personnel in the U.S.S.R.:
Nicholas DeWitt .......................................................... 1

Natural Radiocarbon Measurements by Acetylene Counting:
Hans E. Suess ........................................................... 5

Metallo-Flavoproteins and Electron Transport: H. R. Mahler
and D. E. Green ..................................................... 7

Attitudes of College Seniors toward Federal and Industrial
Employment: Lowell H. Hattery and Charles M. Hersh ..... 12

News and Notes
Work of the UNESCO Advisory Committee on Arid Zone Research;
and Regular Departments ........................................... 15

Book Reviews
Microwave Theory and Techniques; Australian and New Zealand
Botany; Protozoaires; Renal Function; British Veterinary
Codex 1953; Microwave Lenses; Hydrocarbons from Paraffin;
and New Books ......................................................... 25

Miscellaneous Publications ........................................... 30

Technical Papers
Mast Cells in Human Atherosclerosis: A Cairns and
P. Constantinedes ...................................................... 31

Sulfide Inhibition of Catalase: Roland F. Beers, Jr.,
and Irwin W. Sizer ................................................... 32

The Role of Magnesium in Photosynthesis: Leonard S. Levitt ..... 33

Desoxyribose Nucleic Acid in the Symbiotic Microorganisms
of the Cockroach, Blatta germanica: M. T. M. Rizki .......... 35

A Fungus Disease in Clam and Oyster Larvae: H. C. Davis et al. .... 36

Communications
Fatty Acid Absorption and Chylomicrons: Discussions by
A. C. Frazer; H. Singer, J. Sporn and H. Necheles .......... 39

Effect of Elemental Sulfur in the Diet on Load-Extension
Hysteresis in Single Wool Fibers: G. L. Clark and
V. E. Buhrke .......................................................... 40

Trends in Supply of Scientists and Engineers in the
United States ........................................................ 5A

Meetings & Conferences ............................................. 8A

AMERICAN ASSOCIATION FOR THE
ADVANCEMENT OF SCIENCE
