Contents

The Inflorescences of Maize: O. T. Bonnett .................................................. 77
A New University: William Seifriz ................................................................. 87

News and Notes
Ichthyologists and Herpetologists; and Regular Departments ............... 91

Book Reviews
Antiseptics, Disinfectants, Fungicides, and Chemical and Physical Sterilization; The Chemical Structure of Proteins; Contributions to the Theory of Riemann Surfaces; Notions Elémentaires de Chimie Générale; Handbook of Freshwater Fishery Biology; and New Books .................................................. 99

Miscellaneous Publications ................................................................. 102

Technical Papers
Theoretical Foundations of Audio-Visual-Tactile Rhythm Induction Therapy Experiments: Theodore C. Kahn ........................................ 103
Ionie Permeability and Osmotic Swelling of Cells: T. H. Wilson ...................... 104
Ascomycete Spore Mutants and Their Use in Genetic Studies: George Bistis and L. S. Olive ................................................................. 105
Oak Wilt Fungus Labeled with C11: Paul F. Hoffman and Bert M. Zuckerman ................................................................. 106
Waxy Constituents of the Saw Palmetto, Serenoa repens (Bartr.) Small: Edward A. Wilder and Eugene D. Kitzke .................................................. 108
Relationship of Adrenalin to Tissue Sulphydryl Compounds: U. D. Register and R. G. Bartlett, Jr. ................................................................. 109
Action of T2+ Bacteriophage on Host-Cell Membranes: Leonard F. Barrington and Lloyd M. Kozloff ................................................................. 110
The Effect of Pasteurization on the Stability of Phosphates Can Be Used as a Test for Heated Milk: Socrates A. Kaloyereas .................................................. 111

Communications
Pleuropneumonia-like Organisms Isolated from Bronchopneumonia of Cattle: G. R. Carter ................................................................. 113
The Heparin-like Activity of Certain Inorganic Anions: Joseph H. Bragdon and Richard J. Havel ................................................................. 113
Rapid Separation of Diamond from Other Forms of Carbon: F. S. Phinney ................................................................. 114

Armed Forces Institute of Pathology .................................................. 11A

Meetings & Conferences ................................................................. 14A–18A
