The Properdin System and Immunity: I. Demonstration and Isolation of a New Serum Protein, Properdin, and Its Role in Immune Phenomena: Louis Pillemer et al. .......................... 279
Suggested Extension of the Grenville Orogenic Belt and the Grenville Front: Dean B. McLaughlin ........................................ 287

News and Notes
Genetic Recombination; Southwestern Meeting AAAS; and Regular Departments .......................................................... 290

Book Reviews
Nucleo-Cytoplasmic Relations in Microorganisms; Nuclear Theory; Encyclopédie Entomologique, Catalogue Illustré des Lucanides du Globe; Simultaneous Linear Equations and Determination of Eigenvalues; Mechanism of Enzyme Action; Higher Transcendental Functions; Tables of Integral Transforms; Temperature Measurement in Engineering; Advances in Carbohydrate Chemistry; Crystal Growth and Dislocations; New Books; and Miscellaneous Publications .......... 300

Technical Papers
Isolation of Toxic Crystals from Sweet Peas: Waldemar Dasler .................. 307
Exhaustive Chlorination of Hinokitiol: Ping-Yuan Yeh, Chao-Tung Chen, Rolland Shih-Yuan Ro ............................................ 308
Lysis of Cultures Devoid of Vi Antigen by Vi I Bacteriophage of S. typhosa: William B. Cherry, Betty E. Davis, P. R. Edwards 309
Effects of Destructive Distillation of the Uranium Associated with Selected Naturally Occurring Carbonaceous Substances: Irving A. Breger, Robert Meyrowitz, Maurice Deal ......................... 310
Isolation of C¹¹-Labeled DPN and TPN by Paper Chromatography from L. plantarum: Irene U. Boone, Donna Fay Turney, Kent T. Woodward .......... 312
Influence of Vitamins upon Incidence of Tumors in tur⁴ Stock of D. melanogaster: Sidney Mittler ........................................ 314
A Spectrophotometric Determination of Isonicotinic Acid Hydrazide: Dexter S. Goldman ....................................................... 315
Effect of Topically Applied Stannous Chlorofluoride on the Dental Caries Experience in Children: Charles L. Howell and Joseph C. Muhler ......................................................... 316
Reduction of Serum Lipides and Lipoproteins by Ethionine Feeding in the Dog: H. Feinberg et al. .......................... 317
Adrenal Cortex, Lipid Metabolism, and Atherosclerosis: Experimental Studies in the Rabbit: David Adlersberg, Louis E. Schaefer, Chun-I Wang ....................................................... 319
Primary Isolation and Propagation of Influenza Virus in Cultures of Human Embryonic Renal Tissue: W. J. Mogabgab, I. J. Green, O. C. Dierkhising ....................................................... 320

Communications
Lipogenesis by Cells of the Cornea: David G. Cogan and Tochiro Kusabara ................................................................. 321
Toxicity of Sarin in Bullfrogs: Charles G. Wilber ........................................ 322
Morphologic Variation and Mode of Growth of Devonian Trepostomatous Bryozoa: Richard S. Boardman ........................................ 322
Chromosomes of Hypomyces solani f. eucubitan: Arik S. El-Adi .................. 323
Instability of Compounds in the Folie Acid Series: T. H. Jukes .......................... 324

The Financing of Medical Schools ............................................. 5A
Meetings & Conferences ................................................................................................................................. 7A-11A
