The Properdin System and Immunity: I. Demonstration and Isolation of a New Serum Protein, Properdin, and Its Role in Immune Phenomena: Louis Pillemer et al. .................................................................................. 279
Edward Monroe Freeman, Pioneer Plant Pathologist:
E. C. Stakman and J. J. Christensen ...................................................... 285
Suggested Extension of the Grenville Orogenic Belt and the Grenville Front: Dean B. McLoughlin ............................................................... 287

News and Notes
Genetic Recombination; Southwestern Meeting AAAS; and Regular Departments .......................................................... 290

Book Reviews
Nucleo-Cytoplasmic Relations in Microorganisms; Nuclear Theory; Encyclopédie Entomologique, Catalogue Illustré des Lucanides du Globe; Simultaneous Linear Equations and Determination of Eigenvalues; Mechanism of Enzyme Action; Higher Transcendental Functions; Tables of Integral Transforms; Temperature Measurement in Engineering; Advances in Carbohydrate Chemistry; Crystal Growth and Dislocations; New Books; and Miscellaneous Publications ........ 300

Technical Papers
Use of Three-Component Liquid Systems for Countercurrent Distribution:
C. A. Hollingsworth, J. J. Taber, B. F. Daubert.................................. 306
Isolation of Toxic Crystals from Sweet Peas: Waldemar Dasler .......... 307
Exhaustive Chlorination of Hinokitiol: Ping-Yuan Yeh,
Chao-Tung Chen, Rolland Shih-Yuan Ro ............................................. 308
Lysis of Cultures Devoid of Vi Antigen by Vi I Bacteriophage
of S. typhosa: William B. Cherry, Betty R. Davis, P. R. Edwards ........ 309
Effects of Destructive Distillation of the Uranium Associated with Selected Naturally Occurring Carbonaceous Substances: Irving A. Breger, Robert Meyrowitz, Maurice Deul .................................................. 310
Isolation of C¹⁴-Labeled DPN and TPN by Paper Chromatography
from L. plantarum: Irene U. Boone, Donna Fay Turney, Kent T. Woodward ............................................................... 312
Influence of Vitamins upon Incidence of Tumors in tu⁴ Stock of D. melanogaster: Sidney Mittler ......................................................... 314
A Spectrophotometric Determination of Isonicotinic Acid Hydrazide: Dexter S. Goldman ................................................................. 315
Effect of Topically Applied Stannous Chlorofluoride on the Dental Caries Experience in Children: Charles L. Howell and Joseph C. Muhler ............................................................... 316
Reduction of Serum Lipides and Lipoproteins by Ethionine
Feeding in the Dog: H. Frinberg et al. .................................................. 317
Adrenal Cortex, Lipid Metabolism, and Atherosclerosis:
Experimental Studies in the Rabbit: David Adlersberg,
Louis E. Schaefer, Chun-I Wang ...................................................... 319
Primary Isolation and Propagation of Influenza Virus in Cultures of Human Embryonic Renal Tissue: W. J. Mogabgab,
T. J. Green, O. C. Dierkhising ......................................................... 320

Communications
Lipogenesis by Cells of the Cornea: David G. Cogan and Tochiro Kurabayara ................................................................. 321
Toxicity of Sarin in Bullfrogs: Charles G. Wilber ................................ 322
Morphologic Variation and Mode of Growth of Devonian Trepostomatous Bryozoa: Richard S. Boardman ........................................................................................................... 322
Chromosomes of Hypomeex solani f. cucurbitae: Arif S. El-Ani .... 323
Instability of Compounds in the Folie Acid Series: T. H. Jukes .......... 324

The Financing of Medical Schools ............................................................... 5A
Meetings & Conferences .................................................................... 7A–11A
