The Properdin System and Immunity: I. Demonstration and Isolation of a New Serum Protein, Properdin, and Its Role in Immune Phenomena: Louis Pillemer et al. .................................................. 279
Edward Monroe Freeman, Pioneer Plant Pathologist: 
E. C. Stakman and J. J. Christensen .................................................. 285
Suggested Extension of the Grenville Orogenic Belt and the Grenville Front: Dean B. McLoughlin .................................................. 287

News and Notes
Genetic Recombination; Southwestern Meeting AAAS; and Regular Departments .................................................. 290

Book Reviews
Nucleo-Cytoplasmic Relations in Microorganisms; Nuclear Theory; Encyclopédie Entomologique, Catalogue Illustre des Lucanides du Globe; Simultaneous Linear Equations and Determination of Eigenvalues; Mechanism of Enzyme Action; Higher Transcendental Functions; Tables of Integral Transforms; Temperature Measurement in Engineering; Advances in Carbohydrate Chemistry; Crystal Growth and Dislocations; New Books; and Miscellaneous Publications .................................................. 300

Technical Papers
Use of Three-Component Liquid Systems for Countercurrent Distribution: C. A. Hollingsworth, J. J. Taber, B. F. Daubert .................................................. 306
Isolation of Toxic Crystals from Sweet Peas: Waldemar Dasler .................................................. 307
Exhaustive Chlorination of Hinokitiol: Ping-Yuan Yeh, Chao-Tung Chen, Rolland Shih-Yuan Ro .................................................. 308
Lysis of Cultures Devoid of Vi Antigen by Vi I Bacteriophage of S. typhosa: William B. Cherry, Betty R. Davis, P. R. Edwards .................................................. 309
Effects of Destructive Distillation of the Uranium Associated with Selected Naturally Occurring Carbonaceous Substances: Irving A. Breger, Robert Meyrowitz, Maurice Deal .................................................. 310
Isolation of C14-Labeled DPN and TPN by Paper Chromatography from L. plantarum: Irene U. Boone, Donna Faye Turney, Kent T. Woodward .................................................. 312
Influence of Vitamins upon Incidence of Tumors in tu2n Stock of D. melanogaster: Sidney Mittler .................................................. 314
A Spectrophotometric Determination of Isonicotinic Acid Hydrazide: Dexter S. Goldman .................................................. 315
Effect of Topically Applied Stannous Chlorofluoride on the Dental Caries Experience in Children: Charles L. Howell and Joseph C. Mueller .................................................. 316
Reduction of Serum Lipides and Lipoproteins by Ethionine Feeding in the Dog: H. Feinberg et al. .................................................. 317
Adrenal Cortex, Lipid Metabolism, and Atherosclerosis: Experimental Studies in the Rabbit: David Adlersberg, Louis E. Schaefer, Chun-I Wang .................................................. 319
Primary Isolation and Propagation of Influenza Virus in Cultures of Human Embryonic Renuar Tissue: W. J. Mogabgab, L. J. Green, O. C. Dierkhising .................................................. 320

Communications
Lipopogenesis by Cells of the Cornea: David G. Cogan and Tochiro Kunabora .................................................. 321
Toxicity of Sarin in Bullfrogs: Charles G. Wilber .................................................. 322
Morphologic Variation and Mode of Growth of Devonian Trepostomatous Bryozoa: Richard S. Boardman .................................................. 322
Chromosomes of Hypomysis solani L. cucurbitae: Arif S. El-ANI .................................................. 323
Instability of Compounds in the Folie Acid Series: T. H. Jukes .................................................. 324

The Financing of Medical Schools .................................................. 5A
Meetings & Conferences .................................................. 7A-11A

AMERICAN ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE
