SCIENCE

20 AUGUST 1954

VOLUME 120 NUMBER 3112

The Properdin System and Immunity: I. Demonstration and Isolation of a New Serum Protein, Properdin, and Its Role in Immune Phenomena: Louis Pillemer et al. ........................................ 279

Suggested Extension of the Grenville Orogenic Belt and the Grenville Front: Dean B. McLoughlin ........................................ 287

News and Notes

Genetic Recombination; Southwestern Meeting AAAS; and Regular Departments ........................................ 290

Book Reviews

Nucleo-Cytoplasmic Relations in Microorganisms; Nuclear Theory; Encyclopédie Enzymologique, Catalogue Illustré des Lignées du Globe; Simultaneous Linear Equations and Determination of Eigenvalues; Mechanism of Enzyme Action; Higher Transcendental Functions; Tables of Integral Transforms; Temperature Measurement in Engineering; Advances in Carbohydrate Chemistry; Crystal Growth and Dislocations; New Books; and Miscellaneous Publications .......................... 300

Technical Papers

Isolation of Toxic Crystals from Sweet Peas: Waldemar Dasler ........................................ 307

Exhaustive Chlorination of Hinokitiol: Ping-Yuan Yeh, Chao-Tung Chen, Rolland Shih-Yuan Ro ........................................ 308

Effects of Destructive Distillation of the Uranium Associated with Selected Naturally Occurring Carbonaceous Substances: Irving A. Breger, Robert Meyrowitz, Maurice Deal ........................................ 310

Isolation of C14-Labeled DPN and TPX by Paper Chromatography from L. plantarum: Irene V. Boone, Donna Fay Turner, Kent T. Woodward ........................................ 312

Influence of Vitamins upon Incidence of Tumors in tv"u" Stock of D. melanogaster: Sidney Mittler ........................................ 314

A Spectrophotometric Determination of Isonicotinic Acid Hydrazide: Dexter S. Goldman ........................................ 315

Effect of Topically Applied Stannous Chlorofluoride on the Dental Caries Experience in Children: Charles L. Howell and Joseph C. Muhler ........................................ 316

Reduction of Serum Lipides and Lipoproteins by Ethionine Feeding in the Dog: H. Feinberg et al. ........................................ 317

Adrenal Cortex, Lipid Metabolism, and Atherosclerosis: Experimental Studies in the Rabbit: David Adlersberg, Louis E. Schaefer, Chun-I Wang ........................................ 319

Primary Isolation and Propagation of Influenza Virus in Cultures of Human Embryonic Renal Tissue: W. J. Mogabgab, I. J. Green, O. C. Dierkhising ........................................ 320

Communications

Lipogenesis by Cells of the Cornea: David G. Cogan and Toshiro Kanabara ........................................ 321

Toxicity of Sarin in Bullfrogs: Charles G. Wilber ........................................ 322

Morphologic Variation and Mode of Growth of Devonian Trepostomatous Bryozoa: Richard S. Boardman ........................................ 322

Chromosomes of Hypomycetes solani f. cucurbitae: Arif S. El-Asi ........................................ 323

Instability of Compounds in the Polio Acid Series: T. H. Jukes ........................................ 324

The Financing of Medical Schools ........................................ 5A

Meetings & Conferences ........................................ 7A–11A

AMERICAN ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE
