**PERSONNEL PLACEMENT**

**POSITIONS WANTED**

**Administration:** Ph.D. biochemistry, biophysics, botany; 8 years research, industrial and government; currently directing $175,000 program. Desires challenging, rewarding position with growing company. Box 219, SCIENCE. 8/30

**Bacteriologist-Biochemist.** Ph.D. Research and teaching experience. Skilled in Warburg techniques, chromatography, spectroscopy, intermediate metabolism. Box 176, SCIENCE. X

**Bacteriologist, recent Ph.D., large Eastern University.** Industrial position desired. Box 224, SCIENCE. X

**Internist (Hematology)—37; Board Certified; FACP; available for interesting and challenging opportunity (research, academic, clinical or other). Experience qualifies for research (basic and clinical) and/or teaching; organization and management; medical editing and public relations; direction of graduate students and resident training program; clinical activities. In 10th year large midwestern medical college; currently associate professor. Box 211, SCIENCE. 8/13, 20, 27

**Laboratory Supervisor:** Twelve years administrative-teaching-supervisory experience. M.S. (lacking thesis). All fields clinical laboratory methods. Prefer metropolitan northeast. Box 222, SCIENCE.

(a) **Pharmacologist; Ph.D.; extensive experience in circulatory physiology, autonomic pharmacology and general pharmacology.** (b) **Parasitologist, Ph.D.;** well trained in malariaology and related protozoan diseases; particularly interested research. Medical Bureau (Burneice Larson, Director) Palmolive Building, Chicago. X

Ph.D. Majors in Plant Ecology and physiology. Minors in agronomy and zoology. Desire teaching position. John Butler, Botany Department, University of Wisconsin, Madison, Wis. 8/15, 20

Ph.D. bacteriology June 54. Wide chemical, biological background; 2 years previous experience in enzymes. Publications. Research. Other. Box 226, SCIENCE. X

**Scientific Glassblower,** 14 years experience, seeks responsible position with scientific institution. Box 220, SCIENCE. X

**POSITIONS OPEN**

(a) **Director, clinical research:** one of major pharmaceutical companies; $15,000. (b) **Virologist, Ph.D., newly created appointment, eastern university; duties: teaching, research; rank dependent qualifications; $6,000. (e) **Assistant director of research; duties: administrative with research; physician or Ph.D. (Major: Chemistry; Minor: Bacteriology or Pharmacology); large industrial company; East. (d) **Clinical psychologist; association, psychiatric group; South. (e) **Assistant professor, physiology-zoology; large university, South. (f) **Medical Bureau (Burneice Larson, Director) Palmolive Building, Chicago. X

**Clinical Investigation:** Large Midwest Ethical Pharmaceutical Company has opportunity for four physicians for clinical investigation work in the fields of (A) Infectious Disease (B) Endocrinology (C) Pharmacology (D) Nutrition. Prefer young man who has completed residency training and has boards or is candidate for boards in internal medicine. Further training beyond residency desirable. Please outline qualifications and interests in letter to Box 221, SCIENCE.

**Fellowship in Neuroanatomy starting Sept. 1, $1600.00 per year, training leading to an advanced degree. Department of Anatomy, University of Kansas, Lawrence, Kansas.**

**Graduate Fellowships.** Three Teaching Fellowships available, each carrying a stipend of $1,800, requiring 15 hours of assistance. Applications of graduate students with 2 years of graduate study are invited. Chemistry Department, Howard University, Washington 1, D. C. 8/20

**Histology Technician.** Training in histo-chemical techniques preferred, for research on the ovary. Large general hospital. Box 214, SCIENCE. 8/20, 27

**Instructor in general or comparative physiology; additional duties in freshman zoology and mammalian physiology. University, South.** Box 225, SCIENCE. X

**Research Associate—Eastern Pharmaceutical House; some medical background or allied training necessary; to follow-up on investigational projects for Research and Development Division, Liberal benefit program. Send complete resume. Box 223, SCIENCE. X

Wanted: **Cytologist-cyogeneticist for teaching and research; and, Plant Pathologist for extension at midwestern state college.** Box 212, SCIENCE. 8/13, 20, 27

**The MARKET PLACE**

**CLASSIFIED:** 25¢ per word, minimum charge $6.00. Use of Box Number counts as 10 additional words. Correct payment to SCIENCE must accompany ad.

**DISPLAY:** Rates listed below—no charge for Box Number. Monthly invoices will be sent on a charge account basis—provided that satisfactory credit is established.

- Single insertion $19.50 per inch
- 7 times in 1 year 17.50 per inch
- 13 times in 1 year 16.00 per inch
- 26 times in 1 year 14.00 per inch
- 52 times in 1 year 12.50 per inch

**For PROOFS on display ads, copy must reach SCIENCE 4 weeks before date of issue (Friday of every week).**

**BACK NUMBER PERIODICALS—Bought and Sold**

Tell us what you want—What have you to offer? **Abrahams Magazine Service** DEPT. P, 56 E. 13th ST. NEW YORK 3, N. Y.
Your sets and files of scientific journals are needed by our library and institutional customers. Please send us lists and description of periodical files you are willing to sell at high market prices. Write Dept. AJS, J. S. CANNER, INC. Boston 19, Massachusetts

WANTED TO PURCHASE . . .

SCIENTIFIC PERIODICALS

Sets and runs, foreign and domestic. Entire libraries and smaller collections wanted.

WALTER J. JOHNSON • 125 East 23rd St., New York 10, N. Y.

LABORATORY SERVICES

- Project research and consultation in Biochemistry, Chemistry, Bacteriology and Entomology
- Screening of compounds for insecticidal, fungicidal and bactericidal properties
- Biological evaluation and chemical determination of insecticides
- Petegrady and C.S.M.A. aerosol tests
- Warfarin assays

SCIENCE, VOL. 120
A NEW Second Edition of

THE THEORY OF THE Photographic Process

BY C. E. KENNETH MEES

Here is a complete, up-to-date revision of the well-known volume that reviews and summarizes the scientific work which has contributed to the knowledge of the photographic process. The book deals with the composition and properties of photographic light-sensitive materials; the factors which control their sensitivity to light; the changes induced in them by the action of light; the nature of the process of development; the properties of the final image; and the measurement of its tone values. The book is fully illustrated with diagrams and halftones. Complete bibliographies accompany each chapter.

All of the material of the new edition has been completely rewritten with thirty per cent entirely new. Some of the chapters have been rearranged; the chapter on sound recording has been omitted; and these three chapters have been added: The Action of Charged Particles on the Photographic Emulsion, The Latent Image Produced by X-Rays, and the Sensitometry of Color Films and Papers.

IN SCIENCE, INDUSTRY, EDUCATION

the trend is to AO

**Stereoscopic Microscopes**

- The natural, three-dimensional image is large and clear...the specimen is seen right side up...all movements appear in their actual directions. These unique characteristics of AO Stereoscopic Microscopes have made them increasingly popular for examining gross specimens, for inspecting precision mechanical parts, for maintaining purity in food products, for many delicate operations such as manufacturing and assembling minute precision parts or dissecting biological specimens.

No other optical instrument is so versatile. Ask to see an AO Stereoscopic Microscope soon ... you'll undoubtedly get ideas for using one effectively in your work.

---

**THERE'S AN AO STEREOSCOPIC FOR EVERY NEED**

- **MODERATELY PRICED NO. 21 MICROSCOPE**
  A simple instrument for use with opaque specimens.

- **NO. 23 MICROSCOPE FOR LARGE SPECIMENS**
  Scans a 4 foot circle, vertical surfaces, or specimens in deep receptacles.

- **STEREOSCOPIC SHOP MICROSCOPE**
  Mounts on machinery for observing precision operations.

- **NO. 25 MICROSCOPE**
  Has removable horseshoe base and glass stage for both opaque and transparent specimens.

- **NO. 26 MICROSCOPE**
  For examination by reflected light. Readily converted for other uses.

- **NO. 28 MICROSCOPE**
  Combines advantages of No. 25 and No. 23. Takes opaque and transparent specimens. Scans large areas.
