You know how efficiently Technicon Lab-aid cabinets bring order to the filing of microslides, paraffin blocks and associated materials in the pathologic laboratory.

Now, in this new addition to the Lab-aid Filing System, you can enjoy the same benefits in the filing and viewing of color transparencies and lantern slides. The new Lab-aid transparency file has 40 smooth-sliding flat trays, each holding 16 standard 2" mounts, or 5 3 1/4" x 4 1/4" lantern slides in full view. They're easy to insert... you just drop them flat in the grooved frames. Easy to remove, too, by popping them out from underneath.

The special cabinet with its pull-out illuminator drawer lets you view a whole tray of transparencies at a glance, without removing any of them. Sitting or standing, you can inspect hundreds of slides under ideal viewing conditions without stirring from your place. And the disappearing shelf is a mighty handy place to lay slides down temporarily while you're working with them.

Both tray and illuminator cabinets are of the same dimensions and finish as all the other units in the Technicon Laboratory Filing System, and can be stacked interchangeably with them. If you would like more information about these or other units of the system, we'll be glad to send details.

Assembly of Lab-aid Transparency Tray Cabinets, with the illuminator cabinet drawer pulled out. Use the table base, or stack them with your present Lab-aid Files.

The disappearing shelf is convenient as a temporary resting place for slides while working with them.

Inspect all your slides without removing any of them, or even stirring from your place.

OPTICAL COLLIMATOR

This instrument, an item of war surplus, was originally designed to check navigational instruments. It is being used by industry as a collimator for optical instruments, for testing lenses for definition, as a source of infinite light, and for photographing reticles at infinity. It is also being purchased by many firms as a source for the fine lenses and parts it contains. Consists of a large cemented achromat, 5", in diameter, with a focal length of approximately 25". A pin point reticle lighted by a 6-8 volt bulb (to represent a star), a first-surface mirror to reflect the light from the reticle. Overall length 14 ½", width of cradle 7½". Slightly used, but guaranteed in good working order. Shpg. wt. 15 lbs.

Stock No. 80,025-W ..... $95.00 f.b.f. Barrington, N. J.

New! 2 in 1 Combination!
Pocket-Size
50 POWER MICROSCOPE

and
10 POWER TELESCOPE

ONLY $4.50 p.p.d.

Useful Telescope and Microscope combined in one amazing, precision instrument. Imported! No larger than a fountain pen. Telescope is 10 Power. Microscope magnifies 50 Times. Sharp focus at any range. Handy for sports, looking at rare objects, just plain snooping.

Order Stock #20,059-W $4.50 p.p.d.

Send Check or M.O. Satisfaction Guaranteed!

IMPORTED MICROSCOPE—100, 200, 300 Power
1 Oval, 3 Objective Lens, Rack & Pinion Focusing
Revolving dius-light adjustable mirror. Square stage 2½" x 2½". Truly a wonderful bargain. TRY IT FOR TEN DAYS — if not completely satisfied, your money refunded. Comes packed in sturdy hardwood case. Accessory eyepieces and objective available.

Stock No. 70,008-W $14.95 Postpaid

60° SPECTROMETER PRISM

Polished surfaces flat to ½ wave-length. Angle tolerances 5 minutes. Dimensions of polished surfaces 18mm. x 30mm. Made from dense flint glass, free of strain and strain. Ideal for use with all models of spectrometers. $8.25 Postpd.

SISPITZ JR. PLANETARIUM

One of the Greatest Scientific Toys We Have Ever Offered!

Designed by Armand Spitz, world-famous maker of the Spitz Planetarium. Projects nearly 400 stars, more than 70 constellations in their correct relationships. Use it in any darkened room of the house, project it on the ceiling. No batteries, works on ordinary household current. 5" simple adjustments that shows you the sky as it appears from any point in your hemisphere — for any month of the year! Rheostat control for brightness, 32-page booklet included free of extra cost. Contains valuable information about the stars, provides easy identification of the constellations.

About 14" high on a 7" base. Projection sphere 7" diameter. Weight 3 lbs.

Stock No. 70,040-W $15.00 Postpaid

FOR THE

Modern Laboratory

The new INTERNATIONAL Model U is more than just a Centrifuge in a cabinet. International’s experienced engineering has produced a Centrifuge with years-ahead features and unmatched performance.

You will want to know more about the new aerodynamic guard bowl ventilating system—the new stainless steel interior — the stainless steel auxiliary cover that saves valuable bench space — the electric tachometer — the electric time clock — the unique air-filtering system—the spring-loaded hinge — the new vibration dampening system which results in smooth operation without the “shaker” action of over-flexible mountings — the versatility of 84 interchangeable accessory combinations.

Let us tell you more about this completely new Centrifuge, handsomely designed to fit in with your wall counters and cabinets. Write for Bulletin J explaining all these features in detail.

INTERNATIONAL EQUIPMENT COMPANY
1284 SOLDIERS FIELD ROAD, BOSTON 35, MASS.
UNITRON Microscopes offer proven value and quality!

UNITRON Phase Contrast, MPE
Indispensable for the study of living cells and other highly transparent material. Continuous transition from phase to bright-field microcopy by adjusting condenser height. Choice of 4 contrasts. Mechanical stage. Three phase objectives: P10X, P40X, P100X. Eyepieces: 5X, 10X, 15X.
Only $265.

UNITRON Universal Camera Microscope and Metallograph
A completely self-contained unit for visual observation, projection, and photography of both opaque and transparent specimens. Built-in 3½" x 4½" camera, transformer, and illuminator. Optics include 5 objectives and 7 eyepieces. Mechanical stage, polarizing apparatus, micrometers, etc. Magnification: 25-2000X. Additional accessories available.
Only $1,145.

UNITRON Auto-Illumination, MLU
An ideal laboratory or medical microscope. Built-in illuminating system with transformer housed in microscope base. An eyepiece projection prism is included which makes the instrument a self-contained small projector. Graduated mechanical stage. Objectives: 10X, 40X, 100X. Eyepieces: 5X, 10X, 15X.
Only $229.

UNITRON Stereoscopic, MSH
A versatile laboratory instrument giving an exceptionally wide field of view with great depth of focus. Inclined binocular head with distance and diopter adjustments. Revolving nosepiece. Separate low stand. Choice of 3 objectives among 1X, 2X, 3X, 6X. Eyepieces: 8X, 12X, 15X.
Only $314.

UNITRON Metallurgical, MMU
For metals and opaque specimens, and also transparent specimens under both ordinary and polarized light. Vertical, oblique, and transmitted illumination. Transformer housed in microscope base. Focusable stage. Polarizing apparatus and filters. Objectives: 5X, 10X, 40X, 100X. Eyepieces: 5X, 10X, 15X.
Only $287.

Proper instrumentation is essential for efficient laboratory performance.

Yet only recently microscopes were so costly that many laboratories operating on a restricted budget were forced to content themselves with outmoded instruments of limited effectiveness. Furthermore, the more specialized types of microscopes were rarely to be found in the average laboratory, and problems to which they could contribute effectively had to be approached by indirect and less efficient methods.

The low cost of UNITRON MICROSCOPES has made it possible for even the laboratory with limited resources to have at its disposal modern microscopes of unsurpassed precision. Large organizations as well as small have been quick to recognize the outstanding value of UNITRON MICROSCOPES as well as their unexcelled optical and mechanical performance. Well known users include leading universities; industrial firms, and research laboratories such as:

- Harvard University
- General Motors Corp.
- U. S. Dept. of Agriculture
- Cornell University
- Princeton University
- University of Michigan
- CBS Hytron
- Int. Business Machs. Corp.
- U. S. Army
- Bowdoin College
- Carbon and Carboide Chem. Co.
- Brown University
- General Electric Co.
- Northwestern University
- Corn Products Refining Co.
- Mass. Inst. of Technology
- Arthur D. Little, Inc.
- Raytheon Manufacturing Co.
- McGill University
- Schering Corp.

The UNITRON Microscope Catalog is yours for the asking!

This colorful illustrated catalog gives complete specifications on all of the instruments briefly described on this page as well as others which we know you will find of interest. Write for your free copy.

UNITED SCIENTIFIC COMPANY

hot air—at temperatures you can depend on

No more worry about “hot” and “cold” spots. This Castle heavy-duty Hot Air Sterilizer has uniform temperatures throughout. Specially placed baffle-plates and circulation fan provide temperature accuracy of 4°C at any setting between 38°C and 260°C. Temperature control is fully automatic. This good uniformity and wide range help you get more precise and controlled results.

Sterilizer built entirely of stainless steel. Heavy 22 gauge. Non-corrosive, heat resistant. Won’t warp or buckle. Will give you years of tough service, no matter what your load requirements are.

Double stainless steel walls lined with 2” of rock wool. Inside size: 30” x 36” x 20”. Complete with 3 stainless steel shelves, heater, fan, and motor.

Don’t go on depending on uneven sterilization when you can be sure. Phone your Castle dealer, or write for Bulletin Q-8.

LaMotte pH BLOCK COMPARATOR

This improved LaMotte Unit greatly facilitates simple, accurate, Hydrogen Ion Control. It is especially recommended for the use of individual operators on any step of a process where a definite pH value must be maintained. Even with highly colored or turbid solutions determinations can easily be made with accuracy.

The new plastic block comparator is non-corrodible, moisture-resistant, and has more sharply defined color fields.

Complete with any one set of LaMotte Permanent Color Standards, together with a supply of the corresponding indicator solution, measuring pipette and marked test tubes.

LaMotte WATER SOLUBLE pH INDICATORS (Sulfon-phthalein series) pH 0.2–9.6

These products were originally developed in the LaMotte laboratories and are of the same superior quality as the acid form indicators hitherto available for pH work.

They have the distinct advantage of being instantly soluble in distilled water, hence are easy to convert to solution form. Use of alkali, as required in the older technic, is eliminated, and no heating is necessary.

The clean quick way to prepare indicator solutions for accurate pH work.

LARGE CYLINDERS for COMMERCIAL USE

Ample stocks in large cylinders of all gases carried at both our East Rutherford, N. J. and Joliet III. plants.

MEDIUM-SIZE CYLINDERS for PILOT-PLANT and LABORATORY USE

Three different sizes of cylinders containing approximately 5%, 10% and 30% of the contents of large commercial cylinders. These cylinders are designed for use on benches and in hoods and are readily portable.

“LECTURE BOTTLES” for Research Experiments or Classroom Demonstrations.

71 different gases of highest purity are available in these little cylinders which have a diameter of 2” and an overall length of 15½”.

Matheson’s Complete Line of Triple-Tested AUTOMATIC PRESSURE REGULATORS and NEEDLE VALVES assure you of the correct type of control required for each gas.

From Acetylene to Xenon, Matheson has all the gases! Any rare or common gas, or any mixture thereof that you may need in your work is available from the Matheson Company.

Our new catalog listing the prices of 71 gases and mixtures also shows the pressure at which various gases are packed, their purity and the sizes of cylinders in which they may be obtained, as well as the proper type of pressure or flow control to be used. Write for our new price list dated April, 1954.

NEW IMPROVED ROLLER-SMITH PRECISION BALANCE

Featuring increased response and speed and employing Alnico magnets for damping, the new and improved Roller-Smith Precision Balance is capable of weight determinations ranging from 3 milligrams to 150 grams, in sensitivities from 2 micrograms to 20 milligrams. Available in a wide selection of models and ranges. Its attractively designed die cast case, in gray hammer-tone finish, is now fitted with snap latch doors for easy access.

When the quality of your product...the success of your research...depends upon precise weight measurements in a matter of seconds, you can rely on Roller-Smith Precision Balances...universally accepted as the standard for speed, accuracy and simplicity of operation. Catalog No. 4540 illustrates and describes all models...shows wide selection of pans and accessories. Write for your copy today.

These are but a few of the thousands of operations performed daily by Roller-Smith Balances.

- Detects difference in weight of anesthetized insects before and after eating. (Biological Laboratories).
- Insures quality of drugs and antibiotics in the research laboratory. (Pharmaceutical Manufacturers).
- Counts thousands of tiny screws by weight. (Watch Manufacturer).
- Measures accurate powder charge and lead slug for match rifle ammo. (Firearm Manufacturers).
- Protects quality of women’s hosiery...determining synthetic fiber size by weight. (Hosiery Mills).

FEEDING LABORATORY DOGS

By H. C. Schaefer, Director, Laboratory Chow Research

Dogs are valuable animals for research and testing in medical schools and research institutions. For their excellent service as research helpers, they deserve the best in care, housing, sanitation, and nutrition.

Purina has studied canine nutrition for more than a quarter of a century. This has included the nutrient requirements of dogs for maintenance, reproduction, and stress. In addition, there has been continuous study to learn the most economical, convenient, and palatable means of supplying the required nutrients.

The results of this research work have been incorporated into Purina Dog Chow Checkers and Purina Dog Chow Kibbled Meal.

Dog Chow Checkers are recommended for the maintenance of normal, healthy dogs. This product and fresh water should be kept before dogs at all times. About 1 lb. per day for 40-45 lbs. of body weight will keep dogs in excellent condition.

Dog Chow Kibbled Meal is recommended for dogs where palatability is a factor and where increased food intake is desired. This product was developed especially for dogs under stress of reproduction, lactation, growth, and circumstances associated with research investigations. It should be fed once or twice daily, moistened with water to make a desirable crumbly, hamburger-like consistency. A small percentage of raw or canned meat may be fed with Kibbled Meal to make it even more appetizing to dogs with poor appetites.

RALSTON PURINA COMPANY, St. Louis 2, Missouri

WITH OVER 5,000 DEALERS COAST TO COAST TO SERVE YOU
More Precision in Air Conditioning

Niagara "Controlled Humidity" Method provides air at precise conditions of temperature and moisture content.

In the range from below 32°F to 140°F, you may have constant conditions within tolerances of 1°F and 2% R.H. with control by thermostats alone... simple and inexpensive... no moisture sensitive instruments needed.

This Method uses "HYGROL" liquid absorbent to remove moisture from the air directly. Operation is automatic; the absorbent is re-concentrated, by a new, reliable method, at the same rate as it becomes diluted.

Use it for drying processes, preventing moisture damage to instruments or hygroscopic materials, controlled atmospheres for tests and experiments. Unit capacity ranges up to 20,000 c. f. m.
