Dielectrics and Waves
By ARTHUR R. von HIPPEL, Massachusetts Institute of Technology. The first comprehensive, interdisciplinary survey of a field of growing importance in physics, chemistry, and electrical engineering. 1954. 284 pages. $16.00.

Dielectric Materials and Applications
By 22 contributors, edited by ARTHUR R. von HIPPEL. Provides the scientist and engineer with all the basic information he needs in this field. Covers theory, measurement, and applications to specific problem areas. Co-published with the Technology Press, M.I.T. 1954. 438 pages. $17.50.

Organic Reactions, Volume VIII
Editor-in-Chief: ROGER ADAMS, University of Illinois. A further compilation of important synthetic chemical reactions. As in previous volumes, the survey includes methods, modifications, applications, precautions, and other pertinent data. 1954. Approx. 486 pages. Probably $9.00.

Laboratory Experiments in Physiological Chemistry
Second Edition
By ARTHUR K. ANDERSON and GORDON H. PRITHAM, Pennsylvania State University. The most notable additions in this revision of the famous manual are sections on the use of photometric colorimetric analyses, additional pH determination methods, and methods for the proximate analysis of feedstuffs. 1954. 179 pages. $2.00.

The Infra-Red Spectra of Complex Molecules
By L. J. BELLAMY, British Ministry of Supply. A critical review of the data on which infra-red spectral correlations are based, indicating the classes of compounds which have been studied in each case and the known factors which can influence frequencies or intensities of the wave bands. 1954. 320 pages. $7.00.

Organic Syntheses, Volume 34
Editor-in-Chief: WILLIAM S. JOHNSON, University of Wisconsin. The latest addition to the well known series brings together the work of 62 contributors and deals with 32 important new syntheses. 1954. Approx. 126 pages. Probably $3.50.

Organic Syntheses, Collective Volume III
Edited by E. C. HORNING, National Heart Institute. Brings together in a single volume the material from volumes 20–29 of the annual issues. The materials and organization have been brought up to date, new or improved preparation methods are included, and relevant literature is reviewed. 1954. Approx. 898 pages. Probably $15.00.

Plant Regulators in Agriculture
Edited by H. B. TUKEY, Michigan State College. 1954. 269 pages. $5.50.

GET YOUR ADVANCE COPY

of the General Program-Directory
of the Berkeley Meeting of the AAAS

By first class mail – early in December

The General Program-Directory of the 121st Meeting of the AAAS on the campus of the University of California, Berkeley, Dec. 26–31, 1954, will be available to anyone, at cost, within the first week in December—whether he can attend the Meeting or not. You will want the General Program-Directory for your reference shelf.

Program content

1. The three-part General Symposium: "Science and Society."
2. Programs of the 18 AAAS sections (symposia and contributed papers).
3. Programs of the more than 70 participating societies.
5. Details of the Gymnasium for Men—center of the Meeting—and campus.
6. Titles of the latest foreign and domestic scientific films to be shown in the AAAS Science Theatre.
7. Exhibitors in the 1954 Annual Exposition of Science and Industry and descriptions of their exhibits.

Directory content

1. AAAS officers, staff, committees for 1954.
2. Complete roll of AAAS presidents and their fields.
3. The 260 affiliated organizations.
4. Historical sketch and organization of the Association; the Constitution and Bylaws.
6. AAAS Awards and Grants—including all past winners.
7. Membership figures by sections.
8. Section committees (Council members) in detail.
9. Local committees.

Advance Registration

Advance registration has these decided advantages: 1) You avoid delay at the Registration Center upon arrival; 2) You receive the General Program-Directory in ample time to decide, unhurriedly, which events and sessions you particularly wish to attend; 3) Your name is posted in the Visible Directory as the Meeting opens.

The following coupon may be used both by advance registrants and by those who wish only the advance copy of the General Program-Directory.

---- THIS IS YOUR COUPON FOR AN ADVANCE COPY OF THE GENERAL PROGRAM-DIRECTORY ----

1a. □ Enclosed is $2.50 for my advance Registration Fee which brings me the Program-Directory, Convention Badge, and all privileges of the Meeting.

1b. □ Enclosed is $1.50 for only the Program-Directory. (It is understood that, if I should attend the Meeting later, the Badge—which is necessary for all privileges of the Meeting—will be secured for $1.00 more.)

(Manifest one)

2. FULL NAME (Dr., Miss, etc.) .................................................................
   (Please print or typewrite) (Last) (First) (Initial)

3. ACADEMIC, PROFESSIONAL, OR BUSINESS CONNECTION ........

4. OFFICE OR HOME ADDRESS ...........................................................
   (For receipt of Program-Directory)

5. YOUR FIELD OF INTEREST ..............................................................

6. CONVENTION ADDRESS .................................................................
   (May be added later, after arrival)

Please mail this Coupon and your check or money order for $2.50 or $1.50 to the
AMERICAN ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE

PERSONNEL PLACEMENT

YOUR ad here reaches over 32,000 foremost scientists in the leading educational institutions, industrial laboratories, and research foundations in the U. S. and 76 foreign countries—at a very low cost.

CLASSIFIED: 18¢ per word, minimum charge $3.60. Use of Box Number counts as 10 additional words.

DISPLAY: Rates listed below—no charge for Box Number.

For PROOFS on display ads, copy must reach SCIENCE 4 weeks before date of issue (Friday of every week).

Positions Open

Biochemist, Ph.D., 27, currently holding temporary teaching and research position at Medical School will be available June 1955. Box 251, SCIENCE.

(a) Biochemist, Ph.D., particularly interested in research in endocrinology; five years, endocrinology research, important clinic; six years, research, medical school. (b) Statistician, Ph.D.; six years, chief research statistician, and research consultant, pharmaceutical company. Medical Bureau (Burneice Larson, Director), Palmolive Building, Chicago.

Endocrinologist: Assistant Professor Medical School, Ph.D. biochemistry; four years research experience, three years independent investigator; mechanisms of action and biosynthesis of steroids, relationships of vitamins and hormones; seeks academic or research position. Box 254, SCIENCE.

Parasitologist: Ph.D. zoology; marine biology; experienced research worker U. S. and foreign laboratories; publications. Desires teaching and/or research position; would be interested in directing marine laboratory. Box 253, SCIENCE.

Pharmacologist: age 38, Ph.D., M.D., married, 13 years research experience and three years teaching in pharmacology; publications; societies member. Desires research and/or teaching in industry or university. Box 255, SCIENCE.

Employment Manager

ALLEN B. DU MONT LABORATORIES, INC.

35 Market Street
East Paterson, New Jersey

Medical Writer—Pharmaceutical Manufacturing Company in Philadelphia, to plan clinical studies of experimental drugs, to contact physicians involved and to assist in the preparation of manuscripts for medical journals. Bachelor's degree in pre-medicine, biology or chemistry plus writing experience required. Experience in editing, statistics, and promotion desirable. Age 25-35. Excellent benefit program. Send complete information. Box 257, SCIENCE.

Science Editor. Man or woman to edit, write copy in Physics, Geology, Mineralogy, Astronomy and Mathematics for encyclopedias. Strong educational background and editorial experience desired. Give salary and full details. Franklin J. Meine, Editor-in-Chief, American Peoples Encyclopedia, 179 North Michigan Avenue, Chicago 1, Illinois.

Technicians wanted. We have openings in our micro-slide laboratory for one assistant and two experienced technicians. All are permanent, full-time (40-hour week) positions with paid vacations, hospitalization insurance, retirement pension and other employee benefits: (1) Assistant embryologist; must have college degree with major in zoology or biology, including some courses in embryology; experience in slide making not required. (2) Embryologist technician; must be experienced in making serial sections of chick and pig embryos, and in handling all phases of technique work in vertebrate and invertebrate embryology. (3) Botany technician; requirements include good training in morphology and experience in making a wide range of botanical slides, including paraffin and celluloid sections and whole mounts. Preference given to applicants now residing within 500 miles of Chicago. Write to C. Blair Coursen, General Biological Supply House, Inc., 761 East 69th Place, Chicago 37, Illinois.

1955 ARCTIC RESEARCH GRANTS
The Arctic Institute of North America is offering research grants in 1955 for scientific investigations dealing with arctic and subarctic regions. Research must include field investigations or other appropriate activity in North America. Proposals in the broad field of the earth sciences are especially invited. For information and application forms write Arctic Institute of North America, 1550 P Street, N.W., Washington 5, D. C., or 5485 University Street, Montreal, Canada. Completed applications must be received by 1st November 1954.

CANCER the subject of
outstanding A. A. A. S. Symposium Volumes:

MAMMARY TUMORS IN MICE, 1945:
10 contributors, viii + 223 pages, 7½ x 10½, cloth-bound, double column, illustrated, $9.50. Cash order price to A.A.A.S. members, $8.00. Coordinated knowledge of cancer of the breast in mice. It cannot fail to stimulate interest and further research efforts in one of our most fascinating and important biological problems. Prepared by members of the staff of the National Cancer Institute.

APPROACHES TO TUMOR CHEMOTHERAPY, 1947:
93 contributors, x + 442 pages, 7½ x 10½, clothbound, double column, illustrated, $7.75. Cash order price to A.A.A.S. members, $6.50. A progress report, addressed largely to future workers. An important and trustworthy reference book. Planned under the auspices of National Cancer Institute, Memorial Hospital of New York, Sloan-Kettering Institute for Cancer Research, Lankenau Institute of Philadelphia, and others.

For Advanced Courses in Bacteriology, Microbiology and Fermentation

THE LIFE OF BACTERIA

by Kenneth V. Thimann

The central theme of this detailed, well-illustrated text is the bacterium and its influence on its environment. Presupposing a knowledge of organic chemistry, the text treats the physiology and biochemistry of bacteria together with their structure, classification, and relationship to other microorganisms. Particularly noteworthy is the balance of emphasis between the descriptive side, including taxonomy, and the functional side, especially the biochemical reactions which form so large a part of modern bacteriology. There are numerous illustrations, tables and graphs.

Ready in November.

Completely Rewritten with 3 Additional Chapters

THE THEORY of the PHOTOGRAPHIC PROCESS, Second Edition

by C. E. Kenneth Mees

Here is a complete, up-to-date revision of the well-known volume that reviews and summarizes the scientific work which has contributed to the knowledge of the photographic process. The book deals with the composition and properties of photographic light-sensitive materials; the factors which control their sensitivity to light; the changes induced in them by the action of light; the nature of the process of development; the properties of the final image; and the measurement of its tone values. The book is fully illustrated with diagrams and half-tones.

1954  1133 pp.  $21.50

The Macmillan Company

60 FIFTH AVENUE, NEW YORK 11, N. Y.
Understanding starts here

Teachers say:
"AO SPECTROMETER
Fundamental in teaching basic
Optical Principles"

Used extensively in school laboratories, the AO Spectrometer affords a satisfying learning experience for both teacher and student. The extreme accuracy of the instrument allows precise demonstrations by the teacher as well as precise proofs by the student. In the realm of physical measurement the high precision of spectrometer experiments affords an effective stimulus to student interest and respect for the experimental technique.

AO Spectrometer with Accessories

Dependably accurate, it provides a means for the measurement of angles, refractive index and dispersion, as well as the determination of wavelength and the demonstration of emission spectra and spectrochemical analysis.
