SCIENCE
29 OCTOBER 1954
VOLUME 120 NUMBER 3122

Science and Human Nature: E. D. Adrian ........................................ 679
Explanation of the Lake Michigan Wave of 26 June 1954:
M. Ewing, F. Press, W. L. Donn ........................................ 684
Saul Dushman, Unofficial “Dean of Men” of the General Electric
Research Laboratory: A. W. Hull ........................................ 686
Walter M. Boothby, Pioneer in Aviation Medicine: D. B. Dill ............. 688

News and Notes
Deep Waters of Lakes; Photoelasticity and Photoplasticity; News ........ 689

Book Reviews
Science, Medicine and History; Electronics; Permanent Revolution in
Science; Progress in Hormone Research; Chambers’s Shorter Six-Figure
Mathematical Tables; Tables of Lagrangian Coefficients for Sexagesimal
Interpolation; Bedeutung des Blutchemismus; Cultivation of Animal and
Plant Cells; Communication Theory; Energy Metabolism and Nutrition;
New Books; and Miscellaneous Publications .................................. 702

Technical Papers
Use of Factors for Converting Carbon or Nitrogen to Total
Sedimentary Organics: R. G. Bader ........................................ 709
Effect of 2,4-D on Respiration and on Destruction of IAA in Oat and
Sunflower Tissues: J. H. M. Henderson, I. H. Miller, D. C. Desse .......... 710
Production of Dissecting Aneurysms in Rats Fed Lathyrus odoratus:
T. E. Bachhuber and J. J. Lalich ........................................ 712
Relationship between Blood Lipids and Radiation Injury in Rabbits:
L. J. Müh et al. .................................................................. 713
Difference in Carbohydrate Binding between Abnormal Serum and Urine
Proteins of Multiple Myeloma: E. F. Osseman and D. P. Lawlor .......... 715

Communications
Chemical Induction of Flowering in the Sweetpotato:
M. J. Howell and S. H. Wittwer ........................................ 717
Source of Error in Determination of Chromic Oxide Using
Perechloric-Sulfuric Acid Digestion Method: K. M. Day .................... 717
Genetics of Homothallie Fungi: H. E. Wheeler; G. Pontecorvo .......... 718
Radioactivity of the Human Being: P. R. J. Burch and F. W. Spiers;
A. T. Krebs .................................................................. 719
Detection of M-Regions in Geomagnetic Data:
J.-C. Pecker and W. O. Roberts ........................................ 721
Visual Receptor Lamellation and Active Rhodopsin; S. A. Talbot; G. Wald 722
Water-Soluble Chelates in Histochemical Staining:
H. E. Kaufman and E. C. Adams ........................................ 723
Aureomycin and the Thyroid Gland: W. C. Grant ............................ 724

Association Affairs—Pacific Division Meeting .................................. 725

The Process Known as Scapegoating ........................................ 5A
Meetings & Conferences .......................................................... 8A
