Development of the Acetylation Problem, a Personal Account:
F. Lipmann ........................................................ 855

International Conference on Nuclear Physics in Glasgow:
R. M. Steffen ................................................... 865

News and Notes
International Union Against Cancer and the 6th International Cancer Congress; Biologists Invade Florida; and Regular Departments ................................................................. 872

Book Reviews
Optical Properties of Organic Compounds; Tissue Culture; Textbook of Radar; Handbuch der Pflanzenkrankheiten; Physiology and Biochemistry of the Skin; Yeast Technology; Gmelins Handbuch der Anorganischen Chemie; For a Science of Social Man; Biochemistry of Clinical Medicine; New Books; and Miscellaneous Publications ................................................................. 886

Technical Papers:
Test of the Magnetic Theory of Homing:
A. E. Orgel and J. C. Smith ........................................ 891

Relationship of Dental Cavities to General Health:
J. H. Manhold and C. E. Izard .................................. 892

Chemical Induction of Male Sterility in Cucurbits:
S. H. Wittwer and J. G. Hillyer .................................. 903

Recovery from the Failure to Eat Produced by Hypothalamic Lesions: P. Feitelbaum and E. Stellar ................................................................. 894

Amperometric Determination of Disulfides in Intact Proteins:
J. E. Carter .......................................................... 895

Communications
Few Students Want Culture: W. C. Alvarez; W. H. Bell; H. J. Fuller ................................................................. 896

Paleontological Identification and Analysis by the Punched-Card Method: H. J. Holmquest, Jr. ................................................................. 897

Rapid in situ Demonstration of the Thymus and Other Tissues with High Nucleoprotein Content: F. P. Simmons ................................................................. 898

Plastic Chamber for Inert Atmospheric Work: R. E. Lyle ................................................................. 899

On Column Chromatography of Sugars: R. L. Whistler ................................................................. 899

Experimental Arteriosclerosis; Sulfur or Choline Deficiency? G. V. Mann; G. F. Wilgram, W. S. Hartroft, C. H. Best ................................................................. 900

Potential Application of Community Censuses and Genealogies: G. Lasker ................................................................. 902

Paying for the AAAS Headquarters Building ................................................................. 5A

Meetings & Conferences ............................................. 8A
Science 120 (3126), 8A-902.
