Preconvention Issue

Preview of the 121st Meeting, AAAS, Berkeley, California, 26–31 December 1954

Polarization Patterns in Submarine Illumination: T. H. Waterman

News and Notes

Advances in Calorimetry; and Regular Departments; Books Reviewed in The Scientific Monthly; New Books; Miscellaneous Publications

Technical Papers

Prevention of Alloxan Diabetes by Sodium Nitrite and Paraminopropiophenone: E. P. Vollmer et al.

Factors Necessary for the Growth of Bacteroides succinogenes in the Volatile Acid Fraction of Rumen Fluid:
M. P. Bryant and R. N. Doetsch

In vitro Differentiation between Auto- and Isoimmune Antibodies by Protamine and Trypsin:
K. L. Roth and A. M. Frumin

On the Sources of Soil Phosphorus Absorbed by Mycorrhizal Pines:
E. L. Stone and C. McAuliffe

Separation of dl-cis from dl-trans Labeled and Unlabeled Chrysanthemumic Acids on Paper:
F. Acree, Jr., and F. H. Babers

Physiological Evidence Concerning Importance of the Amygdaloid Nuclear Region in the Integration of Circulatory Function and Emotion in Man: W. P. Chapman et al.

Communications

Contemporary Science and the Poets Reconsidered: J. V. Hagopian; H. M. Hirsch; A. Adams; J. Z. Fullmer

Determination of Xanthine Oxidase in Insects with Tetrazolium Salts: A. D. Anderson and R. L. Patton

Simple Multiple-Sample Dialyzer:
E. L. Durrum, E. R. B. Smith, M. R. Jetton
