Trace-Element Sensitivity: Comparison of Activation Analysis with Other Methods: W. W. Meinke ............................................ 177
The Scientist as a Citizen: J. R. Schenken ................................................................. 184
Theodore Lyman, a Pioneer in Far Ultraviolet Spectroscopy: F. A. Boudreaux ............ 187

News and Notes
A Return to Reason; Problems of Comparative Behavior; and Regular Departments ................................................................. 188

Book Reviews
Optical Image Evaluation; Plant Regulators in Agriculture; Thermo-Mikro-Methoden; Amphibians and Reptiles of Western North America; Biochemical Determinants of Microbial Diseases; Differential Equations with Applications; Psychomotor Aspects of Mental Disease; Elementary Chemical Composition of Marine Organisms; Qualitative Inorganic Analysis; Introduction to Human Biochemical Genetics; General Theory of High Speed Aerodynamics; New Books; and Miscellaneous Publications ............. 200

Technical Papers
Nomenclature and Structure of 1,2,3,4,5,6-Hexachlorocyclohexanes: J. Hornstein .......... 206
Partial Charges on Atoms in Organic Compounds: R. T. Sanderson ................... 207
New Blocking Agent against the Development of LSD-25 Psychosis: H. D. Fabing ....... 208
Role of Cytochrome and Pyridine Nucleotide in Algal Photosynthesis: L. N. M. Duyens .... 210
Carbon Dioxide Fixation by Roots: G. E. Graf and S. Aronoff ............................. 211
Rapid Method for Determining Mean Values and Areas Graphically: S. I. Askovitz ........ 212
Inhibition of Root Growth by Azaserine: A. G. Norman ........................................ 213

Communications
Wastes and Nutrients: O. S. Gibbs; P. B. Sears ......................................................... 214
C14-Labeled Ergot Alkaloids: A. G. Paul and A. E. Schwarting ............................. 215
Diffusion Constant and Diffusion Coefficient: J. Verduin ..................................... 215
Antibiotic Effect on Ceratostomella fimbriata of Ipomeamarone, an Abnormal Metabolite in Black Rot of Sweetpotato: I. Uritani and T. Akazawa ........................................ 216
Chemopallidectomy: An Investigative Technique in Geriatric Parkinsonians: I. S. Cooper ................................................................. 217

Association Affairs
International Arid Lands Meetings in New Mexico: G. F. White and P. C. Duisenberg ................................................................. 218

Advice on Loyalty Requirements ................................................................. 7A
Meetings & Conferences .............................................................................. 12A
