Attempts at a Unified Theory of Elementary Particles: H. Yukawa ........ 405
Apparatus for Carbon-14 Dating: C. Ballario et al. .......................... 409
E. C. Schneider, Pioneer in Aviation Medicine: H. B. Goodrich ........ 412
Henry K. Benson, Wood Chemist: J. L. McCarthy ....................... 413

News and Notes
NSF Summer Institutes for Teachers of Mathematics and Science; Indian
Science Congress; and Regular Departments ............................... 414

Book Reviews
Successful Commercial Chemical Development; Animal Cytology and Evo-
lation; Life on Other Worlds; Quantum Mechanics; Characteristics and
Applications of Resistance Strain Gages; Physical Chemistry; Highway
Engineering; Clinical Aspects of the Autonomic Nervous System; Rural
Electrification; Reports on Progress in Physics; Identification of Organic
Compounds; Books Reviewed in The Scientific Monthly; New Books; and
Miscellaneous Publications .................................................. 428

Technical Papers
Molting of Roaches without Prothoracic Glands: L. E. Chadwick .......... 435
X-ray Examination of Molecular Configuration of Asparagine in Crystalline
L-Asparagine Monohydrate: Y. Saito, O. Cano-Corona, R. Pepinsky .... 435
Hyperconjugation in Ketene Dimer: R. H. Wiley .......................... 436
Blood Studies of Red Sindhi-Jersey Crosses: III. Effect of a Fixed Hot
Environment on Blood Constituent Levels of Jerseys and Sindhi-Jersey
Crosses: L. L. Rusoff, M. W. Schein, J. J. Vizinat ..................... 437
Viscosity Studies on the Sodium Desoxyribonucleates Obtained from
Pneumococcus Types III and VI: F. L. Koenig ............................ 439
Reversible Photoreaction Controlling Expansion of Etiolated Bean-Leaf
Disks: J. L. Liverman, M. P. Johnson, L. Starr ........................... 440

Communications
Prior Publication: J. H. Hash and K. W. King ............................. 441
Spectral Absorption of Turbid Systems Using Diffuse Light:
J. B. Bateman and G. W. Monk ............................................. 441
Nutritional Changes in Diets Exposed to Ethylene Oxide:
E. A. Hawk and O. Mickelsen ............................................... 442
On “Improving Scientific Communication”: W. H. Waldo .................. 444
Science and Poetry: R. Gottschalk ......................................... 444
Q10 of the Maximum Tetanic Tension Developed by Isolated Muscle
Fibers of the Frog: M. A. Washington et al. .............................. 445
Marking of Shrimp: R. W. Menzel ......................................... 446

Security Stirrings ................................................................. 9A

Meetings and Conferences ...................................................... 14A
