Oxygen-Carrying Proteins: a Comparison of the Oxygenation Reaction in Hemoctyanin and Hemerythrin with That in Hemoglobin: I. M. Klotz and T. A. Klotz .................................................. 477

U.S. Geological Survey Radiocarbon Dates II:
M. Rubin and H. F. Suess .................................................. 481

News and Notes
Plant Physiology at the International Botanical Congress;
and Regular Departments .................................................. 489

Book Reviews
Lehrbuch der Paläobotanik; Organic Syntheses; Chemical Pathways of Metabolism; Outline of Developmental Physiology; Elements of Food Engineering; New Instrumental Methods in Electrochemistry; Water Supply and Waste-Water Disposal; New Books; and Miscellaneous Publications .................................................. 500

Technical Papers
Chemical Identification of the Amanita Toxin in Mushrooms:
S. S. Block et al. ................................................................ 505

Effect of Hypothermia on 17-Hydroxyeorticosteroid Secretion in Adrenal Venous Blood in the Dog:

Absorption of Antibiotics by Plant Cells: D. Pramer .................. 507

Isolation of Organic Carbon from Bones for C14 Dating: I. May ... 508

Rearing of Honeybee Larvae on Royal Jelly in the Laboratory:
N. Weaver ........................................................................ 509

Use of Plants as Biological Indicators of Smog in the Air of Los Angeles County: R. A. Bobrow .................................................. 510

Contamination of Nuclear Fractions of Thymus Homogenates with Whole Cells: J. R. G. Brown .................................................. 511

Suggestions for Contributors .................................................. 7A

Meetings & Conferences ...................................................... 12A
