Program of the Gordon Research Conferences, AAAS, 13 June–2 September, 1955: W. G. Parks
Contribution of “a Simple Bacteriologist” to Humanity: S. A. Waksman
New Adrenal Cortical Steroid: F. C. Bartter

News and Notes
Survey of Biological Abstracting; Operations Research and Philosophy; and Regular Departments; New Books; Miscellaneous Publications

Technical Papers
Obesity Following Unilateral Hypothalamic Lesions in Rats: J. Mayer and R. J. Barnett
Evidence for Echolocation in the Rat: Mark R. Rosenzweig, D. A. Riley, D. Krech
Binding of Hydrocortisone-4-C¹⁴ and Progesterone-4-C¹⁴ to Serum Albumin, Demonstrated by Paper Electrophoresis: U. Westphal, H. E. Firschein, E. M. Pearce
Continuous Ascending Chromatography—New Technique: H. Fischbach and J. Levine
Detoxication of Drugs and Other Foreign Compounds by Liver Microsomes: B. B. Brodie et al.
Dicentrics in Wheat: J. W. Morrison
Non-Mendelian Segregation in a Single Tetrad of Saccharomyces Ascribed to Gene Conversion: C. C. Lindegren

Communications
Structure of Diatryete 2, an Antibiotic Polyaetylenic Nitrile from Clitocybe diatreta: M. Anchel
Association of Susceptibility to Poliomyelitis with Eye and Hair Color: A. J. Lea
The Measurement of Rotational Speed with a Sonometer: N. W. Waked
Uncritical Citation of Criticized Data: P. Thomasson and J. C. Stanley
Natural Dams of Havasu Canyon, Supai, Arizona: D. M. Black
Security: W. P. Taylor
Status Emeritus: A. S. Hyman
Thorium Determinations in Manganese Nodules: E. D. Goldberg and F. Picciotto
H. G. Wells Predicts: B. Stewart
